the application of private international law to electronic consumer contracts raises new complex and controversial questions it is new because consumer protection was not a private international law concern until very recently and e commerce only became an important commercial activity within the last ten years e consumer contracts generate original questions which have not been considered under traditional private international law theories it is complex because it has to deal both with difficulties raised by consumer contracts and the challenges of e commerce reasonable resolutions to consumer contracts may prove inappropriate in e commerce while effective approaches to resolving private international law problems in e commerce may be improper for consumer contracts it is controversial because it concerns the conflicting interests of consumers and businesses in a fast moving commercial environment a fair balance is therefore hard to achieve without proper solutions provided by private international law consumers will not be confident about purchasing online and businesses will face unreasonable risk and participation costs in e commerce updated and properly designed private international law rules are essential to the further development of e commerce this book aims to provide an answer to the urgent requirement for legal certainty security and justice in e consumer contracts it is primarily concerned with existing approaches to jurisdiction and choice of law issues in e consumer contracts in the european community and england but some typical approaches in other jurisdictions are also examined based on the analysis and the comparative study of the existing law the book seeks to provide a proposal as to what the law should be in order to provide certainty to both parties to provide reasonable protection to consumers and to promote the development of e commerce

this book examines the constitutional principles governing the relationship between legislatures and courts at that critical crossroads of their power where legislatures may seek to intervene in the judicial process or to interfere with judicial functions to secure outcomes consistent with their policy objectives or interests cases of high political moment are usually involved where the temptation indeed political imperative for legislatures to intervene

can be overwhelming although the methods of intervention are various ranging from the direct and egregious to the subtle and imperceptible unbridled legislative power in this regard has been a continuing concern in all common law jurisdictions prominent examples include direct legislative interference in pending cases usurpation of judicial power by legislatures limitations on the jurisdiction of courts strategic amendments to law applicable to cases pending appeal and attempts directly to overturn court decisions in particular cases because the doctrine of the separation of powers as an entrenched constitutional rule is a major source of principle the book will examine in detail the jurisprudence of the united states and australia in particular these jurisdictions have identical constitutional provisions entrenching that doctrine as well as the most developed jurisprudence on this point the legal position in the united kingdom which does not have an entrenched separation of powers doctrine will be examined as a counterpoint other relevant jurisdictions such as canada ireland and india are also examined in the context of particular principles particularly when their respective jurisprudence is rather more developed on discrete points the book examines how the relevant constitutional principles strive to maintain the primacy of the law making role of the legislature in a representative democracy and yet afford the decisional independence of the judiciary that degree of protection essential to protect it from the legislature's impetuous vortex to borrow the words of james madison from the federalist no 48

this convenient description of civil procedure in the federal and state courts of the united states will be greatly welcomed by lawyers and legal scholars everywhere without going into deep analysis the book covers every important feature of these legal systems drawing on the expertise and experience of two well versed practitioners as well as the rules policies normative principles and future trends the authors cite recent cases affecting procedure areas covered include sources judicial organization exercise of the legal profession jurisdiction due process standards rules of evidence enforcement of judgements arbitration and much more

whose law must i obey this question is so basic to our legal obligations that it ought to be easy specifically a person considering an action ought to be able to answer this question by the use of law like rules this ought to be particularly true of criminal law which will be the principal focus of this book

actually this question is partially unanswerable in the world as it exists today whether by accident or design the current structure and content of law national and international sometimes prevents persons natural or juridical from being able to answer the question fully at the time of action
