professor włodzimierz sobkowiak who has researched pronunciation teaching and pioneered technology oriented corpus based approaches to the study of english pronunciation in poland

if phonetics is a comparatively recent subject for european students of foreign languages and is eyed by them with some suspicion as an invention that is meant to make their studies difficult it is even more so with english phonetics for african students have not africans been learning english for over a century and with good results in many cases without giving a thought to its phonetics why introduce this new subject and add to the number of books they have to read and the number of examinations they have to pass before they can get their degree yet if the study of a foreign language is to be up to date its phonetics cannot be neglected on the contrary it is as important as the study of its spelling if not more so with the invention of radio and telephone of gramophone and tape recorders the importance of the spoken word has increased immensely and it is far more essential now than it was a hundred years ago that those who learn a foreign language should learn to speak it properly thus a new subject has been added to the schedule of language students and teachers the study and practice of the sounds of the language and for the teachers also the study of how to teach these sounds

originally published in 1932 this book presents a guide to various aspects of english phonetics aimed at foreign students of the language illustrative figures and a bibliography are also included this book will be of value to anyone with an interest in the teaching of english linguistics and phonetics

american english phonetics and pronunciation practice provides an accessible introduction to basic articulatory phonetics for students of american english built around an extensive collection of practice materials this book teaches the pronunciation of modern standard american english to intermediate and advanced learners worldwide this book provides an up to date description of the pronunciation of modern american english demonstrates the use of each english phoneme with a selection of high frequency words both alone and in context in sentences idiomatic phrases and dialogues provides examples and practice material on commonly confused sounds including illustrative pronunciation diagrams is supported by a companion website featuring complete audio recordings of practice material to check your pronunciation against can be used not only for studying pronunciation in the classroom but also for independent practice american english phonetics and pronunciation

practice is essential reading for any student studying this topic

in the context of globalisation advances in information technology and the wide spread use of the internet developing students ability to speak english with global intelligibility has become the focus of english language teaching introduction to english phonetics and phonology aims to help learners speak the language accurately with the right pronunciation word and sentence stress and intonation the book is designed for use in courses on english language and linguistics at the university level a large number of well labelled illustrations and minimal use of jargon make the book equally accessible to independent learners key features in depth explanation of key concepts place and manner of articulation discussed with accompanying figures extensive examples from everyday english use of flowcharts and diagrams to explain syllable structure separate section on british and american english tasks for reinforcement of concepts and practice select glossary for ready reference
