it is now well over a hundred and fifty years since the first celebrated geographical explorations of africa took place however it was many years before there began quests

of a different kind the investigation of behaviour personality attitude and ability among africa s people originally published in 1975 this book is an account of that work the first explorations in africa of psychology in an exhaustive and well documented report the author a psychologist who had himself done research in nigeria uganda and who had lectured at makerere university drew together the main threads of the research carried out so far putting the issues in an african perspective but anchoring them firmly within the framework of modern psychological thinking and technique of the time are there any common personality and intellectual characteristics among africans how does weaning affect african child development how have africans feelings developed about city life and industrial work the questions the author considers range from the broad based to the specific the challenges which lay ahead for african investigators then moving into the mainstream of the work are also discussed but perhaps above all the book made a convincing case for psychology becoming a relevant and finely honed discipline in black africa characterised by practical application to black african society each chapter covers a defined area of modern psychology of the time and presents a comprehensive survey in a language no more technical than the subject warrants at the time it was felt this book would be invaluable to students of africa secondary education whose course included a psychology component and to african students beginning a degree course in psychology it would also have provided an informative supplement to courses in medicine development studies political science sociology and anthropology

builds a compelling case for thinking and doing psychology differently in and for africa what does the world look like from africa what does it mean to think feel express without apology for being african how does one teach society and children to be african with full consciousness and pride in institutions of learning what would a textbook on african centred psychology look like how do researchers and practitioners engage in african social psychology african centred child development african neuropsychology or any area of psychology that situates african realities at the centre questions such as these are what kopano ratele grapples with in this lyrical philosophical and poetic treatise on practising african psychology in a decolonised world view employing a style common in philosophy but rarely used in psychology the book offers thoughts about the ideas contestation urgency and desire around a psychological praxis in africa for africans while setting out a framework for researching teaching and practicing african psychology the book in part coaxes in part commands and in part urges students of psychology lecturers researchers and therapists to reconsider and reach beyond their received notions of african psychology

understanding human behaviour thoughts and emotional expressions can be challenging in the global context due to cultural differences the study of psychology cannot be de contextualised this calls for unearthing of the explanatory systems that exist in africa to understand and account for behaviour emotions and cognition of africans this call is addressed through the emergence of african psychology ap or indigenous psychology in africa ipa as a legitimate science of human experience this element discusses the motivations for ap centrality of culture demarcations of ap and the different strands within ap it highlights issues related to african philosophy african cultural anthropology african philosophy of science and suitable methodological approaches for ap research it also discusses some selected theoretical contributions and applications of ap the element concludes that ap researchers and practitioners need to pursue interdisciplinarity and avoid meaningless rejection of good ideas from other cultural settings

it is now well over a hundred and fifty years since the first celebrated geographical explorations of africa took place however it was many years before there began quests of a different kind the investigation of behaviour personality attitude and ability among africa s people originally published in 1975 this book is an account of that work the first explorations in africa of psychology in an exhaustive and well documented report the author a psychologist who had himself done research in nigeria uganda and who had lectured at makerere university drew together the main threads of the research carried out so far putting the issues in an african perspective but anchoring them firmly within the framework of modern psychological thinking and technique of the time are there any common personality and intellectual characteristics among africans how does weaning affect african child development how have africans feelings developed about city life and industrial work the questions the author considers range from the broad based to the specific the challenges which lay ahead for african investigators then moving into the mainstream of the work are also discussed but perhaps above all the book made a convincing case for psychology becoming a relevant and finely honed discipline in black africa characterised by practical application to black african society each chapter covers a defined area of modern psychology of the time and presents a comprehensive survey in a language no more technical than the subject warrants at the time it was felt this book would be invaluable to students of africa secondary education whose course included a psychology component and to african students beginning a degree course in psychology it would also have provided an informative supplement to courses in medicine development studies political science sociology and anthropology

one of the most unprecedented developments in the history of the scientific study of psychology in postcolonial africa is the recent welcome inclusion of the study of african psychology within the psychology degree curriculum of some foreword thinking african universities in each of those universities such as the university of kwazulu natal in south africa and kenyatta university in nairobi kenya east africa there now exists a gradual entrenchment of the african derived psychology in the curricular provisions of their psychology degree programmes with particular reference to the university of kwazulu natal in south africa for instance a number of african psychology based modules have recently been developed approved and incorporated into the list of modules for psychology degree students at the undergraduate honours and the master s degree levels see university of kwazulu natal college of humanities handbook 2018

african american psychology from africa to america fourth edition provides comprehensive coverage of the field of african american psychology authors faye z belgrave and kevin w allison skillfully convey the integration of african and american influences on the psychology of african americans using a consistent theme throughout the text the idea that understanding the psychology of african americans is closely linked to understanding what is happening in the institutional systems in the united states the fourth edition reflects notable advances and important developments in the field over the last several years and includes evidence based practices for improving the overall well being of african american communities new to the fourth edition coverage of current issues affecting african americans and causing changes in the social political environment include the black lives matter movement racial trauma and more content from blogs has been added to chapter opening cover stories to reflect the more modern ways news and information are obtained more coverage of literature and research on blacks throughout the diaspora especially in africa provide historical context and documents heterogeneity among african americans in the united states expanded coverage of topics as a result of recent research includes lgbtq individuals african american fathers colorism intersectionality electronic cigarettes social media and more

first published in 2004 re examining psychology takes a critical look at some of the principles underlying the discipline and offers an insight into alternative psychological perspectives deriving from sub saharan africa

african american psychology from africa to america provides a comprehensive and

integrated introduction to the field the fifth edition presents recent advances and developments in african american psychology including new coverage of systematic and institutional racism black empowerment covid 19 s impact on black communities and increased attention to heterogeneity within the black community

contributors explore some of the experiences of trauma of people living in various parts of the african continent where lives are irrevocably altered by the presence of wars violence crime poverty political instability and widespread chronic illness they all begin from the premise that colonialism has had an inestimable impact on the lives and experiences of the people living here a sense of african identity has long been eroded reworked and redefined by a flux of politics and developments from outside the continent thus in any reworking of african concerns there needs to be an awareness that even when thinking from within a critical framework it is difficult avoid participation in the cultural imperialism implicit in the processes of globalisation furthermore the available dominant representations and discourses for the elucidation of the experience of trauma are vastly inadequate so that it is a daunting task to try to make sense of what often seem to be meaningless acts of violence

this core textbook provides students with comprehensive coverage of african american psychology as a field each chapter integrates african and american influences on the psychology of african americans thereby illustrating how contemporary values beliefs and behaviors are derived from african culture translated by the cultural socialization experiences of african americans in this country the literature and research are referenced and discussed from the perspective of african culture mostly west african during the period of enslavement at other critical periods in this country e g early 20th century civil rights era and through the present chapters provide a review of the research literature with a focus on applications for contemporary living

moreover not only do the new african states suffer severe shortages of managers of any kind they also lack resources to give those they do have the skills in human behavior management they need dr ugwuegbu s book seeks to improve management effectiveness and efficiency by providing a better more comprehensive understanding of african work systems and the behavior of africans at work his book the first of its kind introduces the science of human behavior into the management of african organizations it challenges the reign of colonial management practice and blames them for the failure of african managers to adopt modern management

techniques

this is the first volume providing a research platform to showcase research in the field of positive psychology and well being science in african contexts next to enhancing context sensitive theory and practice on the african continent it also contributes to the global discourse in positive psychology and facilitates the development of a science that reflects and is relevant to complexity and diversity in a globalising society this volume brings together work from african scholars featuring research on theoretical perspectives on well being in africa measurement of well being in africa manifestations and dynamics of well being in africa and well being promotion in africa it stimulates further research in positive psychology and well being science in the african context and globally and emphasises the interconnectedness and situatedness of human functioning and well being contributing to a more balanced perspective on well being in an international perspective the volume benefits researchers students and practitioners in africa and other international contexts who study or apply the science of positive psychology and well being in diverse contexts chapter 1 is available open access under a creative commons attribution 4 0 international license via link [springer com](https://www.springer.com)

professionals whether engaged primarily in theory research or practice will welcome the freshness and depth of vision this anthology affords into the history and teaching of psychology into the methodology of culture specific research into the peculiar predicament of the african american into the effects of oppression and the very nature of human personality students of psychology at every level will find in this book valuable and proactive alternatives to the prevailing eurocentric analyses
