this book reframes the study of multicide that is serial and mass murder to use objective measures and aims to expand our understanding of multicide offending through descriptive

and inferential statistical analyses of different homicide patterns of the offenders criminal homicide and multiple murders are rare occurrences that typically account for a very small percentage of all violent crimes in most countries despite this low occurrence homicide continues to be an area of intense study with a focus on subjective measures and classifications the research and analysis based on a database of over 1 300 cases contributes to the criminological study of violence and draws distinctions between the types of offenders partnered and solo serial and mass male and female etc from a range of different countries and across decades traditionally studies of homicide focus on male offenders and theories of offending are then applied to females and co offenders the research presented in this book reveals that women and partnered offenders have very different homicide patterns from men looking at the history of multicide offending this book uses descriptive and inferential statistical analyses to directly compare differences in offending and outcome patterns across multicide offender types this exploration of the multidimensionality of homicide at an international level is useful for scholars and students interested in criminal justice criminology psychology sociology or law

this book is a compilation of more than 70 qualitative research concepts that are used by researchers and practitioners in the social sciences and humanities the concepts include methods and methodologies applied in qualitative research in various contexts each concept is a standalone chapter that is authored by a researcher or practitioner who has had some scholarly experience with it the chapters are alphabetized using the titles of the concepts to provide easy access for readers they follow a prescribed outline which ensures homogeneity in the layout of the book each chapter starts with a brief historical background of the concept followed by a concise description of the concept and the process used in its application readers are then provided with the possible ways in which the concept can be used and its benefits each chapter concludes by providing readers with some strengths and limitations of the concept and a list of references that authors have used in the chapter

second homes variously summer houses shacks baches cottages dacha are a popular cultural phenomenon in many countries and an emerging trend in others they are inextricably linked to tourism recreation and leisure and yet the fundamental relationship between second homes and leisure often appears to have been overlooked by researchers in the area this
