although somewhat marginal in relation to the other senses smell is the most potent way of anchoring ourselves to the world we subconsciously find our place in it by sniffing our body the body of the one next to us the room in which we are the culture with which we are familiar there is an incessant olfactory flow consisting of bodies human and nonhuman that are agents of generation consumption diffusion reproduction and dissolution of odours as they move or pause as they cluster with others or try to move away these bodies constantly partake in this olfactory flow this dense planetary swirl that leaves nothing outside the law aims at presenting itself as rational and objective smell on the other hand is one of the least integrated senses in the legal edifice in comparison to say seeing and hearing this can be attributed mainly to the fact that sense making of smell and law are different even antithetical smell operates undercurrent tickling the olfactory antennas of individual and collective bodies while habitually hiding behind other

sensory volumes law on the other hand has an interest in appearing present universal constant olfactory sense making relies on its elusiveness legal sense making invests in its obviousness yet the two can interact in most unexpected ways as this volume amply shows if anything smell airs the way in which law conceptualises and contextualises its own actuality smell brings law forth by allowing it to show its underbelly its elusive sense making that is invariably sacrificed in preference to the necessity of legal impressions of constancy however smell's fragmentary discontinuous and unstable nature despite all the ordering that goes to it poses a peculiar challenge to the law this volume sets out to investigate this juncture

kristen simmons fast paced gripping ya dystopian series continues in three ember miller and chase jennings are ready to stop running after weeks spent in hiding as two of the bureau of reformation's most wanted criminals they have finally arrived at the safe house where they hope to live a safe and quiet existence and all that's left is smoking ruins devastated by the demolition of their last hope ember and chase follow the only thing left to them tracks leading away from the wreckage the only sign that there may have been survivors with their high profile they know they can't stay out in the open for long they take shelter in the wilderness and amidst the ruins of abandoned cities as they follow the tracks down the coast eventually finding refugees from the destroyed safe house among them is someone from chase's past someone he never thought he'd see again banding together they search for a place to hide aiming for a settlement a few of them have heard about a settlement that is rumored to house the nebulous organization known as three the very group that has provided ember with a tiny ray of hope ever since she was first forced on the run three is responsible for the huge network of underground safe houses and resistance groups across the country and they may offer ember her only chance at telling the world her story at fighting back
