this handbook provides a systematic overview of the present state of international research in digital public history individual studies by internationally renowned public historians digital humanists and digital historians elucidate central issues in the field and present a critical account of the major public history accomplishments research activities and practices with the public and of their digital context the handbook applies an international and comparative approach looks at the historical development of the field focuses on technical background and the use of specific digital media and tools furthermore the handbook analyzes connections with local communities and different publics worldwide when engaging in digital activities with the past indicating directions for future research and teaching activities

this open access book attends to the co creation of digital public services for ageing societies increasingly public services are provided in digital form their uptake however remains well below expectations in particular amongst older adults the need for public services is high while at the same time the uptake of digital services is lower than the population average one of the reasons is that many digital public services or e services do not respond well to the life worlds use contexts and use practices of its target audiences this book argues that when older adults are involved in the process of identifying conceptualising and designing digital public services these services become more relevant and meaningful the book describes and compares three co creation projects that were conducted in two european cities bremen and zaragoza as part of a larger eu

funded innovation project the first part of the book traces the origins of co creation to three distinct domains in which co creation has become an equally important approach with different understandings of what it is and entails 1 the co production of public services 2 the co design of information systems and 3 the civic use of open data the second part of the book analyses how decisions about a co creation project s governance structure its scope of action its choice of methods its alignment with strategic policies and its embedding in existing public information infrastructures impact on the process and its results the final part of the book identifies key challenges to co creation and provides a more general assessment of what co creation may achieve where the most promising areas of application may be and where it probably does not match with the contingent requirements of digital public services contributing to current discourses on digital citizenship in ageing societies and user centric design this book is useful for researchers and practitioners interested in co creation public sector innovation open government ageing and digital technologies citizen engagement and civic participation in socio technical innovation

the disruptive transformation of the public through digitization has led to monopolizing structures on the internet that make europe dependent both at an infrastructural level and politically on non european private and state players at the same time these structures undermine our democratic order this book shows how the current crisis could boost our chances of breaking new ground by establishing an independent european digital public space the contributors are academics actors from public and non commercial media and long time activists in the field of the commons
