chronicles the story of bsa its competition history and all the models it produced including the household names such as the roundtank sloper empire star gold star bantam and golden flash

a guide to britain s motorcycle history giving the history and description of various motorbikes and including the experiences of the present day owners

america s love affair with cars is on the fast track here is the current market value for every model from every major manufacturer in the united states and abroad through the mid 1970s including ford buick cadillac chevrolet chrysler rolls royce and mercedes benz clearly organized from a to z each listing is broken down by date engine specifications model types and body styles with three condition categories from fair to excellent essential references include a list of classic car museums around the country a directory of car collector clubs and a glossary that contains all the terms you need to know to negotiate the deal in addition there are handy hints from the professionals about buying at auction and for investment theft prevention and selling classic cars plus special sections on trucks and motorcycles cover a wide range of vehicles from humpbacks and pickups to flatheads and knuckleheads dozens of photographs help you identify special models

194 pages and more than 240 illustrations and charts size 8 25 x 10 75 inches in 1945 after the war had ended bsa resumed production of their civilian line of motorcycles however they continued their pre war practice of publishing repair overhaul and technical information in the form of individual service sheets these sheets were dealer only publications and as such the print quality was at times somewhat questionable it was not until the early 1960 s that bsa eventually started publishing model specific workshop manuals that were available to the general public consequently these service sheets were the only publications available for the maintenance and repair of bsa models that were manufactured through the early 1960 s at some point in the 1930 s bsa adopted the practice of identifying their various model types by groups and the models manufactured from 1945 through the mid 1960 s were in groups a b c d and m the service sheets that were associated to a particular group were identified numerically and while there were some exceptions due to overlapping data between models in general terms the numbers relate to a particular model group they are as follows the 200 series of service sheets were applicable to group a models the 300 series to group b the 400 series to group c the 500 series to group d and the 600 series to group m in addition there were a 700 series applicable to mechanical maintenance and an 800 series for electronic service and wiring diagrams both the 700 and 800 series of service sheets contained information that was not model

specific but was applicable across multiple model groups unfortunately as these service sheets were issued individually and at random times the numbering sequence within any group is at times illogical and not necessarily consecutive consequently assembling those individual sheets into a publication that serves as a model specific workshop manual is a somewhat difficult task and owners of bsa motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of reprints that have recently flooded the on line marketplace many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished in addition they are often advertised for the incorrect series and or model years of motorcycles the most complete compilation of the 1945 and onwards service sheets was issued by bsa in the form of a dealer only ring binder that contained all of the individual service sheets totaling to almost 500 pages it is extremely scarce and difficult to find this manual contains 59 service sheets 190 pages extracted from that dealer only publication which cover the 1945 to 1960 pre unit rigid plunger and swing arm b31 b32 b33 and b34 plus gold star and competition models please note that service sheets other than those in the 300 series that are included in this publication may also contain data that is applicable to other model groups as that was the original intention for additional information the reader is directed to the book of the bsa 250cc 350cc 500cc 600cc ohv sv singles 1945 to 1959 isbn 9781588502292 which covers the b31 b32 b33 b34 c10 c11 c11dl m20 m21 m33 models for later models see the book of the bsa ohv singles 350cc 500cc 1955 1967 isbn 9781588501561 which covers the b31 b32 b33 b34 star b40 ss90
