about the flaws of the federal income tax he could be referring to the modern tax law designed with special provisions for the rich. Brooks' story does not seem out of date when he writes about the very lucrative opportunities that become available to people who go to work for government agencies and then move to private business and use the connections and the experience that they acquired while working for government when he writes about a three day panic which occurred on Wall Street in the year 1962 he might as well be describing the perplexing 2010 flash crash. Brooks tells how the arrival of xerography prompted hopes and fears which can make the reader think about the early days of the world wide web. Each chapter of John Brooks' book offers engaging stories about people who work together, make decisions under pressure and either succeed or fail to achieve challenging goals. Each story invites the reader to make his or her own conclusions about business and finance practices. There are three rules for running a business. Fortunately, we don't know any of them. In 1978, Paul Newman and a E. Hotchner decided that rather than just distribute Paul's own salad dressing at Christmas to neighbors, they would offer it to a few local stores. Freewheeling, irreverent entrepreneurs, they conceived of their venture as a great way to poke fun at the mundane method of traditional marketing. Much to their surprise, the dressing was enthusiastically received. What had started as a lark quickly escalated into a full fledged business. The first company to

place all natural foods in supermarkets from salad dressing to spaghetti sauce to popcorn and lemonade newman's own became a major player in the food business the company's profits were originally donated to medical research education and the environment and eventually went to the creation of the eight hole in the wall gang camps for children with serious illnesses in these pages newman and hotchner recount the picaresque saga of their own nonmanagement adventure in alternating voices playing off one another in classic odd couple style they describe how they systematically disregarded the advice of experts and relied instead on instinct imagination and mostly luck they write about how they hurdled obstacle after obstacle share their hilarious misadventures and reveal their offbeat solutions to conventional problems even their approach to charity is decidedly different every year they give away all the company's profits empty the coffers and start over again the results of this amazing generosity are brought to life in heartwarming stories about the children at their camps with rare glimpses into their zany style and their compassion for those less fortunate newman and hotchner have written the perfect nonmanagement book at once playful informative and inspirational
