every general's aim is to end a war by Christmas and Montgomery perhaps saw his opportunity in a bold strike across the southern portion of the Netherlands close to the borders of an embattled Reich still heady from earlier victories in the Normandy campaign the plan to push deep into enemy territory with land and airborne forces was as daring as it was dangerous some would say the furthest objective Arnhem bridge was a bridge too far separated into two distinct elements Market the airborne assault was designed to capture the vital bridges across the many rivers and canals that were needed Garden the ground assault would ensure the bridges were soon part of a wider Allied salient however planning and intelligence was as not as thorough as it had been in previous operations and Market Garden turned from glorious adventure with easily achievable aims to an almost devastating defeat this battle craft title also looks at four pieces of military hardware that were involved in these legendary battles representing the land forces are the triumph HW3 motorcycle a dispatch riders stalwart and the unique German SD Kfz 2 Kettenkrad these amazing machines were vital in maintaining lines of communications on the main route of the march the state of the art British Cromwell duelled valiantly against the deadly Panther Ausf G the Quartermaster section provides the modeller with an insight into the development and operational use of the four chosen vehicles that were involved in Market Garden a selection of historical and contemporary photos and illustrations feature alongside stunning showcase builds providing the modeller with subjects to whet

the creative appetite it also features details of model kits and extras that can really help the modeller bring military history to life

for much of the cold war the british army's main battle tanks mbt were first the centurion and then the chieftain the question of the latter's replacement became urgent when in 1980 mbt80 was canceled while the royal ordnance challenger originally the shir 2 was acquired as a stop gap its design and capability limitations quickly became apparent vickers then took over the royal ordnance tank building facility and against stiff foreign competition developed the challenger 2 this superbly researched and illustrated book tells the story of the evolution and subsequent successful career of challenger 2 which has seen distinguished service in war and peace since 1990 and has proved itself one of the world's most formidable fighting vehicles the authors do not shy away from technical detail and make comparisons with competitors the result is an objective and authoritative work which will delight military equipment buffs modelers and wargamers

the british army's challenger ii main battle tank is one of the most awesome war machines ever built in march 2003 three squadrons of challenger 2s from the royal scots dragoon guards part of britain's 7th armoured brigade the fabled desert rats gathered in southern iraq to prepare for battle the army's newest big guns were going to war for the first time but operation telic was a war which the challenger 2 designed to operate in the fog and mud of the central european plain had never been expected to fight and one that would quickly break every rule of tank warfare including the golden maxim never take a tank into a town in main battle tank author niall edworthy granted unprecedented access to the scots dgs tells the story of an extraordinary chapter in the history of british army from the terrifying rescue of a stricken challenger 2 and countless nerve shredding raids into basra and az zubayr to the biggest tank engagement fought by the british since the end of wwii main battle tank is the brutal blistering true story of a war that tested man and machine to the bloody limit

here is the world's military history from ancient times to the present each time period has highlights outstanding leaders unusual developments etc

from the dust jacket this persuasive study attacks the key myths surrounding the battle of britain to revise the relative status of the royal navy and the royal air force fighter pilots anthony cumming challenges the effectiveness of the air force and argues that the royal navy deserves much greater prominence in winning the battle to make his case cumming gives more attention to the views of the german soldiers sailors and airmen than had been previously done and vigorously asserts the success of british warships in countering the plans for operation sea lion and in repelling air attacks by the luftwaffe he also notes the dashing figure of raf fighter command's leader air marshal sir high dowing in comparison with the greatly maligned and relatively unknown naval commander admiral of the fleet sir charles forbes because of its heroic status cumming contends that the british opinion makers gave the raf the lion's share of the glory because its colorful image could more easily be used to manipulate american opinion in support of the british cause this ground breaking book is one of the few academic studies to assert the primacy of the royal navy over the royal air force in the defense of great britain in 1940 cumming contends that the 70th anniversary of the battle of britain should celebrate the contributions of the many rather than focusing on the pilot elite

the allied invasions of sicily and the italian mainland had been met with tenacious resistance by the germans but the defense consisted for the most part of armored units that were little different to those the british had faced in north africa but in early 1944 with the landings at anzio and nettuno and the attempt to bypass the german defensive

line the wehrmacht's high command began shipping heavier and more powerful tanks to the southern front including an increasing number tigers and panthers the initial models of the latter had gone into combat for the first time in July 1943 and it was planned that every panzer regiment would eventually contain a battalion of these impressive vehicles drawing on official documentation and unit histories dennis oliver investigates the formations that operated these deservedly famous vehicles and uses archive photos and extensively researched color illustrations to examine the markings camouflage and technical aspects of the pzkwf v tanks that were an integral part of the german defense of the italian peninsula a key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales technical details as well as modifications introduced during production and in the field are also examined providing everything the modeler needs to recreate an accurate representation of these historic vehicles

the pzkwf iii tank was the mainstay of the panzer divisions during the blitzkrieg era and made up the bulk of the armored force sent to north africa although less heavily armored than many of its opponents it was sturdy and reliable and its main armament was the equal of any enemy weapon it was called upon to face operating in one of the most inhospitable environments on earth the pzkwf iii was at the forefront of the dramatic advances of 1941 and the defensive efforts of the following year all undertaken in the incredible vastness of the libyan desert this volume of the tankcraft series concludes the story of the tank's north african service examining the models that took part in the campaign beginning with the retreat from el alamein and ending with the surrender of the last axis forces in tunisia in May 1943 using archive photos and extensively researched color illustrations to examine the pzkwf iii and the units that operated this deservedly famous armored vehicle during the final battles in north africa a key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales technical details as well as modifications introduced during production and in the field are also examined providing everything the modeller needs to recreate an accurate representation of these historic tanks

until the 1980s the royal armoured corps relied first on the centurion and then the chieftain for its main battle tank needs the question of the chieftain's replacement became urgent in 1980 when the mbt80 was cancelled while the royal ordnance shir 2 was acquired as the challenger it was as a stop gap with design limitations which quickly became apparent vickers took over the royal ordnance tank building facility as the cold war ended and against stiff foreign competition developed the challenger 2 this superbly researched and illustrated book tells the story of the evolution and service career of the challenger 2 it is a tank that has seen distinguished service in war and peace since 1998 and which has proven itself one of the world's formidable fighting vehicles the authors have evaluated the challenger 2's technical merits and development path and what has set it apart from its competitors the result is an objective and authoritative work written with the help of many who have lived the challenger 2 story it will delight military equipment buffs model makers and wargamers

continuation of the reference work that originated with robert dodsley written and published each year which records and analyzes the year's major events developments and trends in great britain and throughout the world from the 1920s volumes of the annual register took the essential shape in which they have continued ever since opening with the history of britain then a section on foreign history covering each country or region in turn following these are the chronicle of events brief retrospectives on the year's cultural and economic developments a short selection of documents and obituaries of

eminent persons who died in the year
