**Overview of Cold Skin by Albert Sánchez Pinol Plot Summary** Cold Skin is set in 1914, during the eve of World War I, when a young man, known only as the Stranger, is sent to a remote island to serve as a weather observer. Isolated and overwhelmed by the stark, icy environment, he soon encounters a series of mysterious and terrifying events. He quickly discovers that the island is inhabited by strange aquatic creatures—an enigmatic species that appears to have a complex intelligence and a dangerous hostility towards humans. As the Stranger navigates this hostile environment, he forms an uneasy alliance with the island's only other human inhabitant, a grizzled lighthouse keeper named Gruner. Together, they face threats from both the creatures lurking beneath the waves and the harsh elements of the island. The novel delves into themes of survival, fear, and the nature of monstrosity, culminating in a tense and thought-provoking climax.
