creo que muchos de los profesionales de la salud no tienen una comprensión adecuada acerca de lo que abarca la medicina del trabajo y las relaciones que esta tiene con la epidemiología más aún frecuentemente se encuentra una falta de comunicación entre el médico del trabajo y el epidemiólogo a pesar de su mutuo interés en la salud y la enfermedad de los trabajadores además considero justo decir que la mayoría de los estudiantes de medicina y de otras ciencias de la salud consideran a la medicina del trabajo y a la epidemiología como unidades de aprendizaje aburridas e irrelevantes las que se estudian únicamente porque se les obliga a ello otro punto de vista común en lo referente a la epidemiología es que se le considera altamente matemática y demasiado compleja para entenderla con este pensamiento he intentado escribir un libro de texto conciso para médicos del trabajo estudiantes de medicina y otros profesionales de la salud que pueda explicar los conceptos básicos de la epidemiología de manera clara y sencilla he tratado de suprimir la brecha existente en la comunicación entre el médico del trabajo como clínico y el epidemiólogo describiendo algunos ejemplos clínicos a través del libro explicando al médico del trabajo por que es necesario el énfasis epidemiológico sobre el estudio de grupos de trabajadores mas que de individuos

los médicos tenemos conciencia de la verdadera revolución que se opera en la base científica de nuestra práctica acompañada del acceso a nuevos recursos terapéuticos y de diagnóstico inimaginables poco tiempo atrás pero desde la mirada de los pacientes la medicina se ha deshumanizado los médicos escuchan poco arrogantes de su saber o apurados por sus compromisos algo muy lejos del modelo nostálgico del médico de la familia el origen de ese malestar es complejo y la posibilidad de saltar de la queja a una reflexión que nos permita avanzar hacia una medicina mejor parece muy difícil de lograr este libro intenta explorar algunos caminos de debate sobre el complicado panorama de la medicina del nuevo siglo mediante capítulos agrupados en tres temas de interés la medicina basada en evidencias el encuentro entre pacientes y médicos y las nuevas miradas a la medicina del siglo xxi
