 diverse aspects of parenting contributors to the handbook look to the most recent research
 and thinking to shed light on topics every parent professional and policymaker wonders
 about parenting is a perennially hot topic after all everyone who has ever lived has been
 parented and the vast majority of people become parents themselves no wonder
 bookstores house shelves of how to parenting books and magazine racks in pharmacies
 and airports overflow with periodicals that feature parenting advice however almost none of
 these is evidence based the handbook of parenting is period each chapter has been written
 to be read and absorbed in a single sitting and includes historical considerations of the topic
 a discussion of central issues and theory a review of classical and modern research and
 forecasts of future directions of theory and research together the five volumes in the
 handbook cover children and parenting the biology and ecology of parenting being and
 becoming a parent social conditions and applied parenting and the practice of parenting
 volume 3 being and becoming a parent considers a large cast of characters responsible for
 parenting each with her or his own customs and agenda and examines what the
 psychological characteristics and social interests of those individuals reveal about what
 parenting is chapters in part i on the parent show just how rich and multifaceted is the
 constellation of children s caregivers considered first are family systems and then
 successively mothers and fathers coparenting and gatekeeping between parents

adolescent parenting grandparenting and single parenthood divorced and remarried parenting lesbian and gay parents and finally sibling caregivers and nonparental caregiving parenting also draws on transient and enduring physical personality and intellectual characteristics of the individual the chapters in part ii on becoming and being a parent consider the intergenerational transmission of parenting parenting and contemporary reproductive technologies the transition to parenthood and stages of parental development and then chapters turn to parents well being emotions self efficacy cognitions and attributions as well as socialization personality in parenting and psychoanalytic theory these features of parents serve many functions they generate and shape parental practices mediate the effectiveness of parenting and help to organize parenting
