explores similarities between the position of the classical symphony in its own time and its position in contemporary american consumer culture by considering the meanings the mainstream and largely middle class american public may construct alongside those heard by today s more elite listeners she reveals the great polysemic potential of this music within our current cultural marketplace she suggests that we embrace crosstalk between performances of this music and its myriad uses in film television and other mediated contexts to recover the pleasure of listening to this repertory in so doing we surprisingly regain something of the classical symphony s historical ways of meaning
