as architectural designs continue to push boundaries there is more exploration into the bound shape of architecture within the limits of spaces made for human usability and interaction the handbook of research on form and morphogenesis in modern architectural contexts provides emerging research on the process of

architectural form finding as an effort to balance perceptive efficiency with functionality while highlighting topics such as architectural geometry reverse modeling and digital fabrication this book details the geometric process that forms the shape of a building this publication is a vital resource for scholars it professionals engineers architects and business managers seeking current research on the development and creation of architectural design

what do architects do what are the educational requirements for architects what does an architectural internship involve how does one become a licensed architect what is the future of the architectural profession if you re considering a career in architecture start with this highly visual guide to preparing for and succeeding in the profession through fascinating interviews with working professionals in the field becoming an architect second edition gives you an inside view of what it takes to be an architect including an overview of the profession educational requirements design specialties from which to choose the job search registration requirements and the many directions in which a career in architecture can go expanded and revised to include the most current issues that are impacting architects work such as bim and integrated practice this essential guide will prepare you for successfully entering this competitive yet rewarding profession

architects are expected to create original ideas resulting in a unique bespoke design with the rise of modern architecture originality became ingrained in perceptions of good design as a result originality has become a barometer against which we measure the value of design however technology today allows for ease of replication and copies thus originality in design has become an ostensibly hollow prospect originals gathers a wide range of responses varied in their opinions and approaches to originality and authorship in design and architecture inflection is a student run design journal based at the melbourne school of design university of melbourne born from a desire to stimulate debate and generate ideas it advocates the discursive voice of students academics and practitioners founded in 2013 inflection is a home for provocative writing a place to share ideas and engage with contemporary discourse

this book addresses possible applications of computer simulation to theory building in management and

organizational theory the key hypothesis is that modelling and computer simulation provide an environment to develop test and articulate theoretical propositions in general computer simulation provides an experimental environment where researchers are able to play with symbolic representations of phenomena by modifying the model s structure and activating or deactivating model s parameters this environment allows to both generating hypotheses to ex post explain observed phenomena or to ex ante generate distributions of unrealized events thereby envisioning areas for further empirical investigations under a methodological perspective the volume investigates logics and techniques to design a research strategy grounded on computer simulation in particular the articles in the book concentrate on two different techniques and philosophies to set up a simulation study system dynamics which is grounded on differential equations and feedback theory and agent based modeling the book describes how computer simulation helps to look into research issues typical to strategic management and organizational theory in this respect such themes as firms diversification strategies competitive strategy rivalry and the impact of role dynamics on organizational performances are explored through the lenses of computer simulation models

includes section notes and reviews

includes special issues

a new manifold the inaugural issue of sac journal addres ses the increased specialisation and possible fragmentation of ex pertise within architecture whilst historically always an amalgam of numerous forms of input architecture is currently facing the necessi ty to assimilate and process hitherto unknown amounts and rates of information flow how can architecture relate to the emerging forms of specialisation within the discipline not the least in its pedagogy and academic programmes the issue uses the academic programme of the städelschule architecture class to reflect on these questions the work presented comprises the finalists for the aiv master thesis prize 2013
