excerpt from ancient civilization a textbook for secondary schools a great deal more attention is being given to social history and the life of the people of the past than was formerly the case a great deal less is being given except by classical students to the history of greece and rome this book aims to meet the need of schools that desire a short ancient history text to the time of charlemagne which shall not be chiefly a narrative of events it deals primarily with human progress it devotes especial attention to great movements to important leaders to the life of the people and to the civilization of different periods although it is not always easy to trace the records of the dim silent masses this social history seems to be worth more than the annals of courts or of conquerors as far as possible the author has tried to keep in mind three things 1 the importance of any change as a part of the development of ancient civilization 2 the connection between these changes and modern life and 3 the interest and capacity of the student in the high school he has tried to give a correct impression of events and changes rather than to describe them with literal accuracy as literal accuracy is impossible in so brief an account even if it were not impossible it would be undesirable

for an exact detailed account would render obscure the character and the meaning of the movement under consideration brief and general as is this survey of a very broad field the author hopes that he may have made the subject interesting as well as intelligible about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](http://forgottenbooks.com) this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

ancient civilizations offers a comprehensive and straightforward account of the world's first civilizations and how they were discovered drawing on many avenues of inquiry including archaeological excavations surveys laboratory work highly specialized scientific investigations and both historical and ethnohistorical records this book covers the earliest civilizations and the great powers in the near east moving on to the first aegean civilizations the mediterranean world in the first millennium imperial rome northeast africa the divine kings in southeast asia and empires in east asia as well as early states in the americas and andean civilization ancient civilizations includes a number of features to support student learning a wealth of images including several new illustrations feature boxes which expand on key sites finds and written sources and an extensive guide to further reading with new perceptions of the origin and collapse of states including a review of the issue of sustainability this fourth edition has been extensively updated in the light of spectacular new discoveries and the latest theoretical advances examining the world's pre industrial civilizations from a multidisciplinary perspective and offering a comparative analysis of the field which explores the connections between all civilizations around the world scarre and fagan both established authorities on world prehistory provide a valuable introduction to pre industrial civilizations in all their brilliant diversity

combines motivating stories with research based instruction that helps students improve their reading and social studies skills as they discover the past every lesson of the textbook is keyed to california content standards and analysis skills

this book has been considered by academicians and scholars of great significance and value to literature this forms a part of the knowledge base for future generations we have represented this book in the same form as it was first published hence any marks seen are left intentionally to preserve its true nature

a civilization grows when people settle and develop a society with a written language government beliefs and a common culture the theme explores how ancient civilizations were shaped by their locations what made them complex societies and what lasting achievements they produced students use the specific content and vocabulary within the book to discuss and examine these big ideas or key concepts

history of ancient civilization by charles seignobos chapter i the origins of civilization prehistoric archaeology prehistoric remains one often finds buried in the earth weapons implements human skeletons debris of every kind left by men of whom we have no direct knowledge these are dug up by the thousand in all the provinces of france in

switzerland in england in all europe they are found even in asia and africa it is probable that they exist in all parts of the world these remains are called prehistoric because they are more ancient than written history for about fifty years men have been engaged in recovering and studying them today most museums have a hall or at least some cases filled with these relics a museum at saint german en laye near paris is entirely given up to prehistoric remains in denmark is a collection of more than 30 000 objects every day adds to the discoveries as excavations are made houses built and cuts made for railroads these objects are not found on the surface of the ground but ordinarily buried deeply where the earth has not been disturbed they are recovered from a stratum of gravel or clay which has been deposited gradually and has fixed them in place safe from the air a sure proof that they have been there for a long time prehistoric science scholars have examined the débris and have asked themselves what men have left them from their skeletons they have tried to construct their physical appearance from their tools the kind of life they led they have determined that these instruments resemble those used by certain savages today the study of all these objects constitutes a new science prehistoric archæology the four ages prehistoric remains come down to us from very diverse races of men they have been deposited in the soil at widely different epochs since the time when the mammoth lived in western europe a sort of gigantic elephant with woolly hide and curved tusks this long lapse of time may be divided into four periods called ages 1 the rough stone age 2 the polished stone age 3 the bronze age 4 the iron age the periods take their names from the materials used in the manufacture of the tools stone bronze iron these epochs however are of very unequal length it may be that the rough stone age was ten times as long as the age of iron we are delighted to publish this classic book as part of our extensive classic library collection many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public the aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades the contents of the vast majority of titles in the classic library have been scanned from the original works to ensure a high quality product each title has been meticulously hand curated by our staff our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work we hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
