this book seeks to deepen readers understanding of world history by investigating urbanization and the evolution of urban systems as well as the urban world from the perspective of historical analysis the theoretical framework of the approach stems directly from space economy and more generally from location theory and the theory of urban systems the author explores a certain logic to be found in world history and argues that this logic is spatial in terms of spatial inertia spatial trends attractive and repulsive forces vector fields etc rather than geographical in terms of climate precipitation hydrography accordingly the book puts forward a truly original vision of urban world history one that will benefit economists historians regional scientists and anyone with a healthy curiosity

a survey of the different literary forms adopted by history writers after the conquest exploring why and for what effects they were used histories of britain composed during the twelfth century renaissance display a remarkable amount of literary variety latin varietas furthermore british historians writing after the norman conquest often draw attention to the differing forms of their texts but why would historians of this period associate literary variety with the work of history writing drawing on theories of literary variety found in classical and medieval rhetoric this book traces how british writers came to believe that varietas could help them construct

comprehensive continuous accounts of Britain's past it shows how Latin prose historians such as William of Malmesbury, Henry of Huntingdon, and Geoffrey of Monmouth filled their texts with a diverse array of literary forms which they carefully selected and ordered in accordance with their broader historiographical aims. The pronounced literary variety of these influential histories inspired some Middle English verse chroniclers including Izaak Walton and Robert Mannyng to adopt similar principles in their vernacular poetry. By uncovering the rhetorical and historiographical theories beneath their literary variety, this book provides a new framework for interpreting the stylistic and organizational choices of medieval historians.

This is the authoritative reference work in the field. An interdisciplinary set, it investigates the extensive history design and methods of case study research.
