by investigating thousands of descriptions of epidemics reaching back before the fifth century bce plague of athens to the distrust and violence that erupted with ebola in 2014 epidemics challenges a dominant hypothesis in the study of epidemics that invariably across time and space epidemics provoked hatred blaming of the other and victimizing bearers of epidemic diseases particularly when diseases were mysterious without known cures or preventive measures as with aids during the last two decades of the twentieth century however scholars and public intellectuals especially post aids have missed a fundamental aspect of the history of epidemics instead of sparking hatred and blame this study traces epidemics socio psychological consequences across time and discovers a radically different picture that epidemic diseases have more often unified societies across class race ethnicity and religion spurring self sacrifice and compassion

this book offers a completely new approach to the complex social phenomenon of the mafia in addition to the origins organization and actions of the mafia the author anita bestler examines above all the close connection between

organized crime and politics in the process readers also gain an interesting insight into the complicated political development of Italy from the founding of the state to the present as well as an answer as to why Italians have a different political mindset

tracing the changing notions of female and male in rural Sicily Linda Reeder examines the lives of rural Sicilian women and the changes that took place as a result of male migration to the United States

In this the first comprehensive book on Liliana Cavani Gaetana Marrone redraws the map of postwar Italian cinema to make room for this extraordinary filmmaker whose representations of transgressive eroticism spiritual questing and psychological extremes test the limits of the medium pushing it into uncharted areas of discovery Cavani's film *The Night Porter* 1974 created a sensation in the United States and Europe but in many ways her critically renowned endeavors which also include *Francesco di Assisi* *Galileo* *I cannibali* *Beyond Good and Evil* *The Berlin Affair* and several operas and documentaries remain enigmatic to audiences here Marrone presents Cavani's work as a cinema of ideas showing how it takes pleasure in the telling of a story and ultimately revolts against all binding ideological and commercial codes the author explores the rich visual language in which Cavani expresses thought and the cultural icons that constitute her style and images this approach affords powerful insights into the intricate interlacing of narrated events we also come to understand the importance assigned to the gaze in the genesis of desire and the acquisition of knowledge the films come to life in this book as the classical tragedies Cavani intended where rebels and madmen experience conflict between historical and spiritual reality the present and the past offering intertextual analyses within such fields as psychology history and cultural studies along with production information gleaned from Cavani's personal archives Marrone boldly advances our understanding of an intriguing important body of cinematic work
