islamic finance has been growing faster than conventional finance for most of the

past decade it has done this on a model of finance that rejects interest and promotes profit sharing how is this possible yet the wealth potential of islamic finance is far from being its most attractive feature what is most compelling about islamic finance are its ethical principles and strong corporate governance based on shariah law this second edition explains and updates how conventional financial products work from mortgages and leases to trade finance and insurance before delving into their islamic versions and contains three new topics on microfinance the ethical company and wealth succession about the authors daud vicary abdullah has been in the finance and consulting industry for more than 40 years and has focused solely on islamic finance since 2002 at hong leong islamic bank he was instrumental in transforming an islamic banking window into a full fledged islamic banking subsidiary today he helms incef international centre for education in islamic finance the global university for islamic finance set up by bank negara central bank of malaysia in december 2005 he is also a frequent speaker and commentator on matters relating to islamic finance keon chee is a senior executive in singapore where he oversees the wills trusts and corporate services businesses in his firm he has many years experience in investment research derivatives financial training and insurance he obtained an mba from columbia university and an ll b hons from the university of london and enjoys using his broad background in helping clients with their estate planning needs he is also co author of the best selling make your money work for you

a detailed look at the fast growing field of islamic banking and finance the art of islamic banking and finance is a modern american take on what it means to incorporate islamic finance principles into everyday banking and investment techniques by introducing a new brand of banking for all people of all faiths the riba free rf banking the author is considered the father of rf islamic banking in america he has been a banker and an imam scholar for over 40 years in america since 1968 he started the tedious process with a finance company lariba in pasadena california in 1987 this is the first book ever in the field to trace the origins of prohibiting the renting of money at a price called interest rate and over indulging in debt the book reviews in great details the theological foundations of prohibiting interest in the jewish bible the christian bible and the qur aan the author then discusses money and how fiat money is created the role of the federal reserve and the banking system in america the book also discusses for the first time ever how to include an important aspect of rf islamic finance using commodity indexation and marking the items to be financed to market in order to avoid participating in economic bubbles the author discusses how these rules work how they affect consumer behavior and how they change the role of the banker financier covers a new pioneering model that is based on the law shari aa and how it is applied in every transaction from joint ventures and portfolio management to home mortgages and personal financing shows how to incorporate the law shari aa into american financing and banking systems points to rf

islamic finance and banking as a way to emphasize socially responsible investing the art of islamic banking and finance also includes a discussion on the emergence of a culture of islamic banking and finance today which is based on the real judeo christian islamic spirit and very effective when compared to twentieth century models that use financial engineering and structuring techniques to circumvent the law sharia the book also includes case studies based on the actual experience of the author and detailed analysis of the superior results realized by applying this new brand of banking to financing

the recent turbulence in the global financial markets has drawn attention to an alternative system of financial intermediation islamic banking and finance which has so far remained on the sidelines of the unrest islamic finance in a nutshell is a quick and easy guide to understanding the fundamentals of islamic finance and how the islamic financial markets work designed as a quick read for practitioners needing to pick up the basics of the industry it will enable readers to understand the differences islamic and western finance starting with the rise of islamic finance the book highlights the key areas which practitioners need to grasp to understand the marketplace including financial statement analysis sharia a law making money in the absence of interest and regulation the book also provides readers with a basic guide to arab terminology and a guide to the top financial institutions within the islamic markets this is an ideal guide for anyone with an interest in how these financial markets work but who do not want to be bogged down in complex and unnecessary terminology

islamic banking and finance in south east asia by angelo m venardos has been a must read since its first edition in 2005 and has already been translated to arabic now in its 3rd edition the book offers important updates you can look forward to starting with the foundations of islamic banking developments and issues the reader is then treated to a timely survey of islamic banking in five south east asian countries most of these chapters have been completely revamped from the last edition one additional chapter has been added on islamic succession planning which introduces an increasingly essential aspect of muslim life that of managing one's wealth now and in the afterlife whether you are new to the topic or a practitioner in the industry you will appreciate the accessible way in which the book is written according to the asian journal of comparative law the book gives a broad overview yet manages to achieve this in a rather slim volume while providing depth of analysis at the same time

a comprehensive and fully up to date introductory textbook to islamic finance and banking islamic finance and banking is being used increasingly globally especially in the regions of middle east and north africa south east and south asia to cater to the need of trained islamic finance staff a large number of educational institutions are beginning to offer courses majors and minors in islamic finance and banking the

major challenge faced by these institutions are suitable textbooks for both undergrad and post grad levels and especially with the relevant instructor resources ppts test bank practice activities and answer keys luckily fundamentals of islamic finance and banking is here to cover the most important topics related to islamic finance and banking if b that are relevant for students of business finance and banking offers an historical background of islamic finance covers the principles of sharia law as pertinent to finance and banking provides in depth discussion of the six key islamic banking products murabaha mudaraba musharaka ijara salam and istisna discusses the islamic insurance takaful gives an overview of islamic investment especially sukuks concludes with the global standing of the islamic finance and banking industry would be colleges and universities offering this subject as a course within their finance and or banking program can t be without this invaluable guide

the handbook of islamic banking comprises 25 studies by leading international experts on islamic banking and finance specially commissioned to analyse the various debates and the current state of play in the field from its origins thirty years ago islamic banking has expanded rapidly to become a distinctive and fast growing segment of the international banking and capital markets despite this expansion islamic banking still remains poorly understood in many parts of the muslim world and continues to be a mystery in much of the west this comprehensive handbook provides a succinct analysis of the workings of islamic banking and finance accessible to a wide range of readers at the same time it seeks to bring the current research agenda and the main issues on islamic banking before a wider audience islamic banking offers as an alternative to conventional interest based financing methods a wide variety of financial instruments and investment vehicles based on profit and loss sharing arrangements these are all explored in detail along with other subjects such as governance and risk management securities and investment structured financing accounting and regulation economic development and globalization m kabir hassan mervyn lewis and the other contributors have created an authoritative and original reference work which will contribute to a wider understanding of islamic banking as well as provoking further discussion and research it will be invaluable to all scholars researchers and policymakers with an interest in this subject

islamic finance has grown exponentially since 1963 and has reached more than 70 countries around the world with the asset size of about 2 5 trillion the islamic financial system today comprises a sizable asset base and there is evidence of sustained demand for islamic financial products and services in the global market with demand outstripping supply this book provides a new source of understanding of the islamic financial products in view of facilitating academia industrialists professionals product designers students and policymakers globally there is a mass of literature on islamic finance available to the market but very little research is found in the form of book exclusively on islamic financial products and their structures thus this book is a

timely contribution to the global market with islamic financial product solutions

this book discusses the nature and theories which govern systems of islamic finance including its most distinctive features and its relationship with conventional financial institutions it explores the nature and role of money in modern economies and elaborates on the process of credit deposit creation trade cycles and instruments for the creation of value in financial markets through the perspectives of islamic finance the author explains its characteristics especially the rationale for the lack of interest based financial activities he examines the intrinsic ethical and humanistic frameworks that govern financial theories and practices and the models for the creation of value risk sharing and socially responsible investing as well as the governance and regulation that these systems follow the author also does a comparative assessment of conventional financial systems with islamic finance with relevant examples assesses the performance of islamic systems and examines existing and expanding markets for islamic finance lucid and cogent this book is useful for scholars and researchers of islamic finance islamic studies economics banking and finance in general

there has been a rapid increase in the interest in the study of islamic finance resulting in a dramatic rise in financing since the beginning of the century by the end of 2017 global industry assets had reached 2.4 trillion and were forecasted to reach 3.2 trillion by 2020 despite historic challenges to islam itself at the same time this collection of chapters provides key theoretical empirical and policy insights into islamic finance from an overall complex financial and economic systems perspective within the complex financial and economic systems framework this book addresses questions such as how to conceptualize islamic financial institutions in a nonlinear general equilibrium system how to promote islamic finance in africa how islamic is islamic finance and how it affects price stability among other topics the book provides case studies in africa and asia addresses the subject in a structural financial cge model demonstrates the development impact of islamic finance and presents an islamic version of the iceland plan for monetary reform

the book provides comprehensive compilation on islamic legal documents related to islamic financial system consists of legal statutes frameworks guidelines circulars and internal compliant manual covering islamic banking takaful and islamic capital markets brief description of those documents are laid down to assist non legal background readers in having comprehensive view of islamic finance legal system few special focuses are done to shariah screening methodologies for stocks islamic fund and real estate with special review on few sukuk issuances as to familiarize reader with the principle terms and conditions ptc of the sukuk islamic finance is not just a system but it is a way to achieve the spirit of shariah i.e. maqasid shariah in providing prosperity to the society in blessing ways avoiding all prohibited elements as stated in islamic law

this study addresses derivatives instruments in islamic finance it highlights the benefits of these instruments their legal aspects and the appropriate alternatives the forward futures and options contracts in commodity markets are discussed and the arguments in favour of and against these instruments examined the forward contracts issue includes the possibility of trading gold in forward basis the forward market for currencies and the possible alternative to manage related risks with the examination of futures contracts the main arguments against such a contract are addressed for example the sale prior to taking possession and the sale of debt hedging and speculation the study proposes khiyar al shart and bay al arbun as tools of risk management and alternatives to options the sale of pure rights is at the center of the admissibility of options in islamic law and is investigated comprehensively
