live a life of peace love and happiness through spiritual awakening in wake up now author stephan bodian nationally recognized expert on meditation and spirituality and former editor in chief of yoga journal reveals that spiritual awakening is not

some faraway dream or overly complicated to achieve but an ever present reality that is always available here and now based on his own experience and over 30 years of teaching the direct approach to spiritual awakening bodian has broken down the awakening process into five overlapping loosely sequential stages seeking awakening deepening and clarifying embodying and living the awakened life wake up now guides you through every stage of the journey from the process of seeking through the often prolonged and challenging process of integrating the awakening into everyday life this book is one of the most concise guides to spiritual awakening i have read both profound and practical it guides the reader through the intricacies of awakening as only someone who has walked the walk themselves can do the clarity and compassion this book offers the sincere spiritual seeker is both rare and welcome adyashanti renowned spiritual teacher and author of the impact of awakening and emptiness dancing topics include entering the gateless gate seeking without a seeker freedom from the known the practice of presence who is experiencing this moment right now spontaneous awakening in the wake of awakening embodying the light freeing the dark inside the light the awakened life

this is not a book about the history of computing or the history of information instead it is a meta historical book about the research and writing of these types of history the formal presentation of historical research in the form of a publication often hides the process by which the topic was selected boundaries were drawn evidence was selected analytic approach was chosen and applied results were presented how this work fits into a larger body of scholarship the implicit goals and biases of the author and many other similar issues this process of learning about the various ways to carry out computer history or information history can be enriched by this collection of reflective essays by experienced scholars discussing the craft that they practice this is a book that concerns both computer history and information history the first scholarship in computer history by professionally trained scholars began to appear in the 1970s so we are approaching a half century of research and publication in this area the field has generated numerous pieces of exemplary scholarship from various perspectives such as intellectual history of individual technologies business histories of firms economic histories of market sectors externalist histories of funding and professionalization and so on however the field continues to evolve especially as computing and communication technologies have drawn together in the form of the internet and social media and with them a new set of scholars is participating drawn not only from the history of science and technology but also from the communication and media studies fields

powerful theories approaches and frameworks are being increasingly drawn more widely from both the humanities and the social sciences to inform the practice of computer history the scholars in this volume look at what s happened what s happening now and where historical scholarship in these disciplines is headed

this book brings together for the first time the works of jewish authors writing in swedish who describe the special circumstances confronting jews in the twentieth century in sweden and scandinavia during the second world war sweden s small long established and well assimilated jewish community was never subject to the open and ultimately fatal ethnic identification that most european jews suffered older and middle aged swedish born jewish authors tend to think of themselves only as swedes within the last few decades however sweden has become an immigrant country and a younger generation writes from a different perspective twenty of the twenty two authors represented in this anthology are still very active and many of the pieces were written in the last fifteen years each work chosen illustrates some aspect of jewish identity in sweden either today or in the course of a century in which sweden played a crucial controversially neutral role in a war that had a catastrophic impact on europe and led to the near annihilation of the european jews this volume provides the complex historical framework in which these events occurred and elucidates the role played by the largest scandinavian country within it contemporary jewish writing in sweden brings together superb work by major writers in one of europe s foremost national literatures and includes the first english translation of an excerpt from peter weiss s recently discovered 1957 swedish novel

when lucent technologies was spun off from at t in 1996 the new company was full of promise an old line manufacturer it quickly became a sizzling hot stock thanks to the emergence of the internet and the build up of telecommunications the stock market was soaring and lucent flew with it within a few short years it became the sixth largest corporation in america and the most widely held stock in the country yet only months later lucent was gasping for life victim of the greatest stock market bubble in history optical illusions is the story of a financially sound company steeped in world class talent dominant in one of the fastest growing industries that in the space of two years found itself downgraded to a junk bond credit rating under investigation by the sec for its accounting practices the value of its stock reduced to the price of a cup of coffee lisa endlich tells the fascinating tale of the company that epitomized the misfortunes of the telecom industry leaving investors and employees shocked and confused in writing this book endlich had access to more than a hundred people who played a role in the drama as well

as previously sealed courtroom documents she explains how the conflicting styles of ceos henry schacht and rich mcginn contributed to lucent s woes and she shows how the loss of skilled executives such as carly fiorina hurt the company at a crucial moment when it was all over schacht lucent s first ceo who was later brought back to right the listing ship acknowledged that lucent had allowed itself to be swept up in the market mania distorting its corporate values in the process although the stock market mania of the late 1990s is remembered as the internet craze or the dot com madness as optical illusions shows the damage was more widespread and lasting in fighting for its survival lucent laid off more than 70 percent of its employees wrecking retirees savings and investors portfolios alike

infoworld is targeted to senior it professionals content is segmented into channels and topic centers infoworld also celebrates people companies and projects

this book develops a formal computational theory of writing systems it offers specific proposals about the linguistic objects that are represented by orthographic elements what levels of linguistic representation are involved and how they may differ across writing systems and what formal constraints hold of the mapping relation between linguistic and orthographic elements based on the insights gained sproat then proposes a taxonomy of writing systems the treatment of theoretical linguistic issues and their computational implementation is complemented with discussion of empirical psycholinguistic work on reading and its relevance for the computational model developed here throughout the model is illustrated with a number of detailed case studies of writing systems around the world this book will be of interest to students and researchers in a variety of fields including theoretical and computational linguistics the psycholinguistics of reading and writing and speech technology
