Their architecture reflects a combination of functionality and grandeur, designed to withstand sieges while

showcasing the wealth and power of their owners. Construction involved massive stone walls, battlements, towers, and complex internal layouts. Key features include: - Curtain Walls: Thick stone walls forming the perimeter, often topped with battlements for archers. - Towers: Elevated structures like keep towers provided vantage points and strongholds within the castle. - Moats and Ditches: Natural or man-made water defenses surrounding the castle to hinder attackers. - Gatehouses and Drawbridges: Controlled access points, often heavily fortified. - Inner Courtyards: Central open spaces where various activities took place, surrounded by living quarters, chapels, and service buildings. It housed the lord's quarters and storage. - Great Hall: The heart of social life, used for dining, gatherings, and ceremonies. - Chapel: Religious space essential for daily worship and special rites. - Servants' Quarters and Kitchens: Located in less prominent areas, these housed staff and prepared food. - Stables and Workshops: For maintaining horses, weapons, and tools. - Dungeons: Used for captivity or punishment.
