originally published in 1947 this book examines the regional styles of architecture which developed inside england itself particularly during the later medieval period it discusses the causes and locations of these regional variations in explaining the cause for the geographical variations in style the author investigates the various factors responsible for bringing them about such as geology race religion foreign influence transport and fashion as churches have survived the passage of time better than many secular buildings the emphasis is on church architecture although not exclusively the book contains over 120 photographs and the book is an original and important inquiry into the origin and development of local styles in english architecture

the idea of the cottage in english architecture is a history of the late georgian phenomenon of the architect designed cottage and the architectural discourse that articulated it it is a study of small buildings built on country estates and not so small buildings built in picturesque rural settings resort towns and suburban developments at the heart of the english idea of the cottage is the classical notion of retreat from the city to the countryside this idea was adopted and adapted by the augustan infused culture of eighteenth century england where it gained popularity with writers artists architects and their wealthy patrons who from the later eighteenth century commissioned retreats gate lodges estate workers housing and seaside villas designed to appear as cottages the

enthusiasm for cottages within polite society did not last by the mid nineteenth century cottage related building and book publishing had slowed and the idea of the cottage itself was eventually lost beneath the tudor barge boards and decorative chimneystacks of the historic revival and yet while both designer and consumer have changed over time the idea of the cottage as the ideal rural retreat continues to resonate through english architecture and english culture

provocative elegant intriguing jenkins is a bold imaginative writer brilliant at challenging old assumptions and encouraging you to look at british architecture in a new light rory stewart the story of britain is revealed through its buildings and yet the language of architecture is a mystery to all but a few in this enlightening history spanning castles and cathedrals to factories and railway stations jenkins translates the hidden narratives infused in the facades we walk past every day britain s history has been formed by its politics religion and society and these influences can be seen in the architectural styles that have shaped its landscape from pre roman and the middle ages to the renaissance and the industrial revolution classical and gothic styles surged and retreated from favour only to then be challenged by a new player modernism a style that reflected the stunning technological advances of the second half of the twentieth century in this narrative history simon jenkins the bestselling champion of our national heritage introduces us to the singular eccentric and sometimes rather ordinary characters who shaped britain jenkins teaches readers to see the world anew demystifying the elitist language of architecture so that we can all appreciate the buildings around us

this book brings together twenty four original essays by colleagues pupils and friends of kerry downes the essays range from the late middle ages to the twentieth century but are concentrated on the period to the study of which kerry downes has contributed so much that of wren vanbrugh and hawksmoor taken together these essays display the different approaches taken by architectural historians and the rich variety of english architecture

since 2004 gavin stamp one of britain s most eminent and readable architectural historians has written a monthly column for apollo the esteemed architecture and fine art magazine the subject is simply whatever in design or architecture happens to take his fancy it might be the splendid reopening of the magnificent midland grand hotel at st pancras station or the dilapidation of a little known church in eastbourne the much lamented demise of the original routemaster bus or the colossal majesty of the airship sheds that housed the r 101 but while these pieces display a wonderful range and variety they are unified by stamp s wider quest to explore define and champion the very englishness of english architecture and design when fine examples are preserved and restored he celebrates when they fall victim to philistine neglect or worse demolition he mourns and when the elegant is overshadowed by the merely modish he deplores in anti ugly stamp has selected the best of these excursions producing a compulsively readable collection that builds into an eloquent learned trenchant and often indignant portrait of our national design heritage

the architecture of england from norman times to the present day provides information pertinent to the evolution of english architecture this book shows why different building types are erected and explains their significance and characteristics this book begins with an overview of the architecture of the ancient civilizations of rome and greece which had a great influence on the architecture of england this text then explains the anglo saxon and norman architecture which have their roots in the temples of ancient greece while after the renaissance in italy classic forms were brought over from that country this book discusses as well the important structural development made by the romans which is the use of the vault and the arch the reader is also introduced to the utilization of iron and glass by the architect engineers to solve the problems arising from the industrial revolution this book is a valuable resource for architects and engineers
