agricultural reform a considerable coal owner interested in mining engineering as well as a keen developer of spa culture by examining the experiences of gascoigne and his milieu this book explores english catholic attitudes towards continental catholicism the influence of the european enlightenment upon their education and outlook and how this affected their christianity their estates and their conception of national identity it demonstrates how increased toleration entailed a gradual rejection amongst english catholics of a pious separatism for a more ecumenical and ultimately enlightened approach to religion although this risked the loss of english catholics to anglicanism many like gascoigne remained crypto catholic in sympathy they adapted their faith to the enlightenment and regarded it as a matter of personal conviction and private choice alexander lock is curator of modern historical manuscripts at the british library

this book comprehensively surveys and critically analyses gandhi s ideas on caste and untouchability it emphasizes the fact that gandhi was a considerable thinker who had seminal ideas on the caste question as an intellectual history this book is not just a study of his ideas but also of what he practised it narrates his lifelong struggle against untouchability since his south african days and focuses on his distinctive understanding of the caste question which differed sharply from that of his contemporaries both on the right and the left the book also critically analyses and questions the attribution of strategy to gandhi with regard to both the nationalist and anti untouchability movements the volume will be of great interest to scholars and researchers of history caste and discrimination studies and south asian studies

judith brown explores nehru as a figure of power and provides an assessment of his leadership at the head of a newly independent india with no tradition of democratic politics

a new edition of this widely used text covers the last two centuries of indian history concluding with an epilogue written from the perspective of the 1990s it thematically and analytically discusses the emergence of india as one of the world s largest democracies and one of the most stable of the states to emerge from the experience of colonialism the foundations of this rare phenomenon in either asia or africa are seen in india s society the ideas and beliefs of her people and the institutions of government and politics which have developed on the subcontinent in a process of interaction between what was indigenous to india and the many external influences brought to bear on the country by economic political and ideological contact with the western world

modern scholarship has shown how diverse and complex was india s socio economic and political development and this theme runs through the study which eschews any simple understanding of india s political development as a clash between imperialism and nationalism or the making of a new nation the complexity reflects many of the continuing ambiguities and inequalities in the subcontinent s life and suggests why the structures of the state and indeed the very nature of the indian nation are now being questioned often with unprecedented public violence india s dilemmas are not hers alone they also raise economic political and social issues of profound significance throughout the contemporary world

by the end of the twentieth century some nine million people of south asian descent had left india bangladesh or pakistan and settled in different parts of the world forming a diverse and significant modern diaspora in the early nineteenth century many left reluctantly to seek economic opportunities which were lacking at home this is the story of their often painful experiences in the diaspora how they constructed new social communities overseas and how they maintained connections with the countries and the families they had left behind it is a story compellingly told by one of the premier historians of modern south asia judith brown whose particular knowledge of the diaspora in britain and south africa gives her insight as a commentator this is a book which will have a broad appeal to general readers as well as to students of south asian and colonial history migration studies and sociology

dr brown presents a political study of the first clearly defined period in mahatma gandhi s indian career from 1915 to 1922 the period began with gandhi s return from south africa as a stranger to indian politics witnessed his dramatic assertion of leadership in the indian national congress of 1920 and ended with his imprisonment by the british after the collapse of his all india civil disobedience movement against the raj focusing on gandhi this book nevertheless investigates the changing nature of indian politics it aims to study precisely what gandhi did on whom he relied for support how he interacted with other nationalist leaders and how he saw his own role in indian public life unlike the usual interpretation of gandhi s rise to power as based on a charismatic appeal to the indian masses this study argues that his influence depended on a capacity to generate a network of lesser leaders or subcontractors who would organise their constituencies for him whether these were caste communal or economic groups or whole areas
