this book highlights for professional parish ministers the vital importance of the foundational or pre communal aspects that make a parish community healthy and strong it provides not a sociology of the parish but a sociology of the first ingredients that go into making a parish community it is not therefore a book explaining or analyzing the organizational dimensions or social structures that make up a parish such as the roles and statuses needed for a parish to function rather the book examines the formation of relationships in the first place within the context of a parish and how such relationships might be maintained over time upward social mobility is a deterrent to forming such relationships while social ritual practices such as eating together are a means for establishing and sustaining parish relationships the book is theoretically grounded in the work of

emile durkheim who discusses in minute detail the ingredients of social solidarity and community life in his classic work the elementary forms of religious life

this revised and updated edition of small christian communities a vision of hope for the 21st century is a rich source of practical information about how to make the vision of the parish as a community of many small communities come alive y
