since the battle of the little bighorn george armstrong custer has possessed one of the most unique places in american history although he was a capable cavalry officer who served honorably during the civil war he remains one of the most instantly identifiable and famous military men in american history due to the fact he was killed during one of the country s most well known and ignominious

defeats the battle of little bighorn at the same time this one relatively insignificant battle during america s indian wars has become one of the country s most mythologized events and continues to fascinate americans nearly 140 years later on the morning of june 25 custer s scouts discovered a native american village about 15 miles away in the valley of the little bighorn river choosing to disregard his superiors orders to wait for a concerted effort the grandstanding custer intended to deliver his own decisive victory by dividing his command into three units an extremely bold tactic when done in the face of a much larger force due to their belief in the inferiority of the plains indians and mindful of previous indian tactics that sought to avoid pitched battle custer and his men were most concerned with forcing the action and failed to understand the true nature of the situation they had entered the native american gathering centered around the famous sioux chief sitting bull numbered roughly 8 000 individuals and about 2 000 of them were warriors custer s forces amounted to a mere 31 officers 566 troopers and 50 scouts and civilians and they had been split into three columns in order to stop a possible retreat before the battle it is believed custer thought he was facing a group of about 800 which was sitting bull s strength in the weeks before the battle however the army s native american scouts and civilian scouts had not adequately informed the army of the reinforcements that arrived and at little bighorn custer s three pronged attack was completely overwhelmed how custer met his fate and whether there even was a last stand remain subjects of debate but what is known is that the battle of the little bighorn was one of the u s military s biggest debacles all told the 7th cavalry suffered over 50 casualties with over 250 men killed and over 50 wounded the dead included custer s brothers boston and thomas his brother in law james calhoun and his nephew henry reed custer and his men were buried where they fell a year later custer s remains or more accurately the remains found in the spot labeled with

his name were relocated to west point for final interment

in the late 1930s a number of american women especially those allied with various peace and isolationist groups protested against the nation s entry into world war ii while their story is fairly well known margaret paton walsh reveals a far less familiar story of women who fervently felt that american intervention was absolutely necessary paton walsh recounts how the united states became involved in the war but does so through the eyes of american women who faced it as a necessary evil covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through

activism in women s organizations informal women s networks and even male dominated lobbying groups in the great debate over whether america should enter the war some women favored aid to the allies not because they hoped for war but because they hoped aid would forestall more direct u s involvement but also because they believed war was preferable to a nazi victory paton walsh shows that this activism involved some of the most prominent women of their day elizabeth cutter morrow whose son in law charles lindbergh was an isolationist spokesman supported the revision of the neutrality acts to allow the sale of arms to the allies and expressed her support in a national radio broadcast soon other women joined this debate esther brunauer of the aaup journalist dorothy thompson and organizations like the league of women voters and national women s trade union league broke from the pacifist tradition to advocate american aid for the allied cause focusing on the conflict in europe paton walsh shows how these women grasped the implications of the lend lease program for america s entry into the war but supported it nevertheless by late 1941 the women s division of the fight for freedom committee had been established no longer merely advocating aid to britain to keep american boys out of battle this organization supported direct american involvement in the war as a means of stopping nazi oppression while most historians have focused on women s pacifism paton walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs our war too is a story of american women trying to reconcile the irreconcilable to preserve both their principles and their peace it expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on american public opinion over the build up to the war
