covenant a vital element of reformed theology provides a multi disciplinary reflection on the theme of the covenant from historical biblical theological and systematic theological perspectives the interaction between exegesis and dogmatics in the volume reveals the potential and relevance of this biblical motif it proves to be vital in building bridges between god s revelation in the past and the actual question of how to live with him today

why does god speak to human beings is it to impart information is it to unveil the secret of his being is it to pronounce judgment when we probe deeply into these questions the author contends we find that god does not speak to mortals simply to satisfy their curiosity or sense of guilt he speaks to his people in order to establish with them a personal covenantal relationship god reassures them he claims them for himself he gives himself to humankind he holds on to them as a father to an unruly child the covenant as a theological category opens up the whole aspect of human destiny and puts mortals and creation in a new perspective this doctrine is so fundamental to theological reasoning the author argues that we may describe it as the axiom of biblical faith from this axiom he goes on to define such other biblical themes and doctrines as the relation between evil and sin the Òplan Ó meaning and time of salvation the fall the cross and the sacraments the covenant as creation and as revelation history as a moral testing ground christ as the end of time and the new age

this volume offers a synchronic literary reading of the final form of the laws of exodus 20 22 23 19 commonly though inaccurately labelled the book of the covenant in contrast with primarily source and form critical approaches commonly utilized in the past the work seeks to demonstrate that this literary unit is much more coherent more integrated into its narrative context less in need of the positing of corruptions secondary insertions rearrangements or the like than has usually been recognized the approach instead seeks to find authorial purpose in each case where scholars have often posited scribal misadventure seams between sources disorder contradiction or corruption
