islam advocates how does islam fit into the globalization era what impact and influence may muslims have on the future of globalization what unique prospects does globalization provide muslims and the islamic faith is islamic revivalism a reaction to globalization alternatives to globalization could exist what kind of structure will the islamic globalization paradigm have in addition to addressing these questions the book attempts to provide a theoretical framework for islamic globalization which incorporates the shuratic practice and the vision of an international community extending beyond the arabs and non arabs this underscores the importance of historical contexts for contemporary actions and beliefs in the process the book attempts to extend the debate on islam and globalization by mapping out the effects of globalization on various aspects of muslim culture
