plato five dialogues euthyphro apology crito meno phaedo plato was a philosopher in classical greece and the founder of the academy in athens the first institution of higher learning in the western world he is widely considered the most pivotal figure in the development of philosophy especially the western tradition unlike nearly all of his philosophical contemporaries plato s entire work is believed to have survived intact for over 2 400 years others believe that the oldest extant manuscript dates to around ad 895 1100 years after plato s death this makes it difficult to know exactly what plato wrote along with his teacher socrates and his most famous student aristotle plato laid the very foundations of western philosophy and science alfred north whitehead once noted the safest general characterization of the european philosophical tradition is that it consists of a series of footnotes to plato in addition to being a foundational figure for western science philosophy and mathematics plato has also often been cited as one of the founders of western religion and spirituality plato s influence on christianity is often thought to be mediated by his major influence on saint augustine of hippo one of the most important philosophers and theologians in the foundation of the western thought in the 19th century the philosopher nietzsche called christianity platonism for the people numenius of apamea viewed this differently he called plato the hellenic mores this would justify the superiority of christianity over hellenism because mores predates plato thus the original source of this wisdom is the root of christianity and not hellenistic culture 12 plato was the innovator of the written dialogue and dialectic forms in philosophy plato appears to have been the founder of western political philosophy with his republic and laws among other dialogues providing some of the earliest extant treatments of political questions from a philosophical perspective plato s own most decisive philosophical influences are usually thought to have been socrates parmenides heraclitus and pythagoras although few of his predecessors works remain extant and much of what we know about these figures today derives from plato himself

excerpt from five dialogues of plato bearing on poetic inspiration plato wrote no systematic treatise on philosophy not because he was not a systematic thinker all his

writings are expressions of a single outlook on reality a system which though it may perhaps show signs of development yet always preserves its unity but he expounded it in a series of dialogues each of which stands by itself complete in each some separate aspect of life or reality some separate problem for thought to unravel is the starting point and centre of the discussion only the solutions have a common unity for all these various problems when discussed lead the inquiry back to a conception of the relation between sense and thought which is the centre of plato s philosophy the five dialogues in this volume however have been brought together because they all throw some light on a special side of plato s teaching his doctrine of the place and importance of intuition or inspiration however we describe that immediate element in thought which can be distinguished from that other element which is teachable and reducible to rules in each of these dialogues though for different purposes and from different points of view plato expounds that part of his system which has attracted the attention and admiration of great poets and lovers of poetry and which when developed by later thinkers who lacked plato s devotion to exact logical thinking and his interest in science proved the source of much later mysticism as plato wrote no systematic treatise on philosophy so he wrote no aesthetic but these dialogues present the materials for a platonic aesthetic or rather for an aesthetic in accordance with the general principles of platonic philosophy but which plato himself would probably have disowned about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

today there is evidence that most minority groups in the united states suffer from symptoms related to intergenerational transmission of collective historical trauma for those with additional mental health issues treatment can become complicated unless underlying historical hostilities are addressed this practical text by david s derezotes helps readers understand the causes and treatment of historical trauma at an individual group and community level and demonstrates how a participatory strengths based approach can work effectively in its treatment publisher s website

the mahābhārata has been explored extensively as a work of mythology epic poetry and religious literature but the text s philosophical dimensions have largely been under appreciated by western scholars this book explores the philosophical implications of the mahābhārata by paying attention to the centrality of dialogue both as the text s prevailing literary expression and its organising structure focusing on five sets of dialogues about controversial moral problems in the central story this book shows that philosophical

deliberation is an integral part of the narrative black argues that by paying attention to how characters make arguments and how dialogues unfold we can better appreciate the mahābhārata's philosophical significance and its potential contribution to debates in comparative philosophy today this is a fresh perspective on the mahābhārata that will be of great interest to any scholar working in religious studies indian south asian religions comparative philosophy and world literature
