for decades engelhardt has alluded to the ethics that binds moral friends while his foundations of bioethics explored the sparse ethics binding moral strangers this long awaited volume addresses the morality at the foundations of christian bioethics the volume opens with an analysis of the marginalization of christian bioethics in the 1970s and the irremedial shortcomings of secular ethics in general drawing on the christianity of the first millennium engelhardt provides the ontological and epistemological foundations for a christian bioethics that can remedy the onesidedness of a secular bioethics and supply the bases for a christian bioethics the volume then addresses issues from abortion third party assisted reproduction and cloning to withholding and withdrawing treatment physician assisted suicide and euthanasia practices such as free and informed consent are relocated within a traditional christian morality attention is also given to the allocation of scarce resources in health care and to the challenge of maintaining the christian identity of physicians nurses patients and health care institutions in a culture that is now post christian

first published in 1982 this reissue contains a critical exposition of the views of frege dedekind and peano on the foundations of arithmetic the last quarter of the 19th century witnessed a remarkable growth of interest in the foundations of arithmetic this work analyses both the reasons for this growth of interest within both mathematics and philosophy and the ways in which this study of the foundations of arithmetic led to new insights in philosophy and striking advances in logic this historical critical study provides an excellent introduction to the problems of the philosophy of mathematics problems which have wide implications for philosophy as a whole this reissue will appeal to students of both mathematics and philosophy who wish to improve their knowledge of logic

this is a book about the relationship of the two traditions of platonic interpretation the indirect and the direct traditions the written dialogues and the unwritten doctrines kramer who is the foremost proponent of the tubingen school of interpretation presents the unwritten doctrines as the crown of plato s system and the key revealing it kramer unfolds the philosophical significance of the unwritten doctrines in their fullness he demonstrates the hermeneutic fruitfulness of the unwritten doctrines when applied to the dialogues he shows that the doctrines are a revival of the presocratic theory renovated and brought to a new plane through socrates in this way plato emerges as the creator of classical metaphysics in the third part kramer compares the structure of platonism as construed by the tubingen school with current philosophical structures such as analytic philosophy hegel phenomenology and heidegger of the five

appendices the most important presents english translations of the ancient testimonies on the unwritten doctrines these include the self testimonies of plato there is also a bibliography on the problem of the unwritten doctrines

a scientific treatment should not diminish but increase the general interest taken in character to bring together the various aspects of the subject which in literature are treated in isolation from one another to lead up to a general conception of it to study the methods by which the knowledge of it may be increased in accuracy and extent these are to make approaches to a scientific treatment of character while i have had chiefly to confine myself to a study of the tendencies of the emotions and sentiments this has been throughout my aim this book then is a study of method yet i do not claim that this method is essentially new it is in the main the hypothetical method of the sciences it has had to be adapted to the treatment of character that is all a complete science of mind would include a science of character the best approach to such a science is through the study of the primary emotions and their connected instincts this study is to be directed to an analysis of tendencies psycinfo database record c 2005 apa all rights reserved

no one would disagree with the assessment that christians over the centuries have been guilty of antisemitism sometimes with barbarous results the real question is not whether individual christians have been antisemites but whether antisemitism is somehow ingrained in the very roots of christianity in its very essence rosemary ruether has declared that antisemitism is the other side of christology the inevitable fallout of placing jesus at the right hand of the father the contributors to this volume consider that larger question from several vantage points their findings are vitally important for christians and jews alike not only do they explore the beginnings of christian antisemitism they help us understand the dynamics of the religious impulse for all peoples and all times publisher

this book presents and survey of the foundations of mathematics the emphasis is on a mathematical comparison of systems rather than on any exhaustive development of analysis within a single system nevertheless for most systems considered enough details are given for the development of arithmetic and the method of constructing the other notions of analysis is indicated the elements of the general theory of cardinal and ordinal numbers are also furnished in the course of this work
