community or public service translation contributes to a more equitable and sustainable community by empowering minority groups such as migrants and refugees and is a growing area for both teaching and research within translation studies written by a leading authority with over 20 years of teaching experience and in consultation with a range of academics running major courses across the globe this is the first accessible and interactive introductory textbook to this growing area it provides step by step guidance to students undertaking an undergraduate or postgraduate course covering community translation public service translation translation as social action or translation as a social service in multilingual and multicultural societies the book covers key issues in this area of translation practice including its distinctive features challenges and requirements role and ethical issues common text types translation strategies translation revision and quality assurance and relationships with end users including examples of a range of different text types suggested activities and readings at the end of each chapter and additional resources and activities on the routledge translation studies portal this is the essential introduction for all students of community and public service translation

the shang han lun has been a primary treatment theory and practice source for nearly two millennia its author zhang zhong jing has been named the chinese hippocrates to highlight the depth and breadth of his contribution to traditional chinese drug therapy this edition features the chinese text pinyin transliteration and an english translation of the entire song dynasty text the content and textual order most used in asia just as in chinese language editions it is fully supplemented with notes and commentaries the notes describe the clinical symptoms zhang zhong jing associated with the chinese terms for example modern interpretations of a moderate pulse often refer to the speed of its beats the same term when used in the shang han lun refers to a pulse that is loose soft and harmonious such notes provide practitioners with the clinical observations necessary to properly apply the information the commentaries further enhance the text's clinical utility by explaining the theoretical and practical foundations behind the lines of text because entire bodies of theory and practice can be associated with the terms and expressions used in canonical works like the shang han lun commentaries have become a standard means of knowledge acquisition for asian students the commentaries in this edition serve exactly the same purpose greatly enhancing its utility the introductory matter explains the background of the text the conceptual structure of its contents and the

*problems of exegesis the appendices are designed to assist those studying chinese and the glossary and the full pinyin english index make this an easily accessed reference*

*discussion of cold damage shang han lun and contemporary texts of ancient china form the bedrock of modern chinese medicine practice yet these classic texts contain many concepts that are either hard to understand or confusing based on over thirty years medical practice and study of the texts this book explains the concepts involved so that the clinical applications of the ancient texts can be better understood and put into practice the author looks at the larger context of ancient chinese culture and philosophy in terms of theoretical knowledge scholarly approach and mindset in order to explain the basis for the medical texts he also discusses the work of later chinese medical scholars in elucidating the texts he then goes on to look at more specific issues such as the six conformations zang fu organ theory the theory of qi and blood the theory of qi transformation and how these are understood in the ancient texts he also discusses shao yang and tai yang theory the element of time and its place in understanding six conformations diseases this remarkable work of scholarship will clarify many questions about the interpretation of the ancient texts for modern use and will find a place on the bookshelf of every practitioner of chinese medicine as well as on those of scholars of chinese medicine*

*a major new translation of the chinese classic shang han lun by scholar and medical doctor guohui liu makes this foundational text fully accessible to english speaking clinicians for the first time extensive study and research underpins the translation the author s understanding of both classical and modern chinese enables him to interpret fully the ancient work within the theory of chinese medicine an extensive commentary explains the translation the difficulties with the text how it has been subsequently translated and expands on the theory laid out in the original text to reach an understanding that can be applied in the clinic for diagnosis and treatment the value of this classic text lies primarily in its establishment of a basic framework for differentiation and treatment but it also presents 112 formulas and 88 medicinal substances which are commonly applied in clinical work for various conditions in this edition the 112 formulas are fully explained in the context of the clinical experiences of well known ancient and modern doctors and they are also laid out in two appendices cross referenced to the text*

*the field of 3d bioprinting is rapidly evolving offering unprecedented opportunities for medical and scientific advancements introduction for liver 3d bioprinting book 1 introduction to cell biology is the first volume in a comprehensive series dedicated to exploring the intricate relationship between cellular biology and 3d bioprinting technology specifically focusing on the liver this book serves as a foundational text aiming to bridge the gap between basic cell biology and its application in bioprinting understanding the principles of cell biology is crucial for anyone involved in tissue engineering regenerative medicine and 3d bioprinting as it provides the essential knowledge needed to manipulate and cultivate cells effectively in this volume we delve into various aspects of cell biology including the mechanisms of cellular processes the roles of different cellular structures and the intricacies of cellular signaling pathways these topics are meticulously chosen to provide a broad yet detailed overview that sets the stage for more specialized discussions in subsequent volumes our goal is to equip researchers students and professionals with the knowledge required to innovate and excel in the field of 3d bioprinting each chapter is designed to build a strong conceptual framework facilitating a deeper understanding of how cellular functions can be harnessed and manipulated for bioprinting applications as you embark on this journey through the cellular world we hope this book will inspire new ideas foster scientific curiosity and contribute to the growing body of knowledge in the field of bioprinting whether you are a seasoned researcher or new to the subject this text aims to provide valuable insights and a solid foundation in cell biology essential for advancing the science and application of 3d bioprinting thank you for joining us in exploring the fascinating intersection of cell biology and 3d bioprinting we look forward to seeing the innovative solutions and breakthroughs that will emerge from your understanding and application of the concepts presented in this book*

*the increasing europeanisation of the law of delict torts has produced textbooks casebooks monographs and also sets of model rules of a genuinely european character a major gap still existing today relates to the experiences gathered in the national legal systems over the past decades the present work attempts to fill this gap for one key element of tort law the notion of damage it thus does what the previous volume in the digest of european tort law series did for another key element ie natural causation once again the publication contains a selection of the most important cases decided in 26 states across europe as well as by the european court of justice for each case the facts and the relevant court decision are presented and the decision is analysed within the wider context of the development of the respective legal system in addition the editors provide comparative analyses of the case law reported in this volume concerning all the specific problems raised under the heading of damage the publication also looks into how key cases would be resolved under the european model rules drafted in the field of tort law and it also highlights cases from earlier periods of legal history the editors believe that the material gathered here may provide guidance for an organic convergence of the national legal systems in europe it constitutes the basis of an *acquis commun* that is infinitely richer though also much more complex than the rather bland and abstract concepts*

contained in national codifications european legislation and the modern model rules

this book was first published in taiwan to teach chinese medical english to chinese students the present u s edition provides english speaking students a useful introduction to the concepts of chinese medicine and to the english terminology described in greater detail in a practical dictionary of chinese medicine paradigm publications 1998 it is particularly suitable for those beginning to learn chinese medicine after having studied chinese and for those who wish to master the english terminology for the purposes of translation over 800 commonly used chinese terms are organized in thematic order each english term is followed by the corresponding chinese term in simplified and complex characters as well as pinyin transcription the pronunciation of the english term is given in kenyon knott transcription for the benefit of non english speakers the definitions and clinical significance of terms are written entirely in english at the end of each chapter there are exercises which not only provide activities for students to do in class or at home but also furnish teachers with examples for examination questions three appendixes contain answers to the quizzes present the most important characters with examples of their usage and teach taiwanese students the prc pinyin system publisher

this study concentrates on three major issues creating a basis for the making of the czech english law dictionary with explanations namely language including terminology in both the czech and anglo american systems of law the process of legal translation and the lexicographic method of producing a bilingual law dictionary terminology has been considered the most significant feature of language for legal purposes it encompasses a wide range of special purpose vocabulary and higher syntactic units including legal jargon conceptual analysis is to be pursued whenever an identical term in the target language does not exist or its full equivalent is in doubt legal translation should be based primarily on comparative legal linguistic and genre analysis in order to make the transfer of legal information as precise accurate and comprehensible as possible the primary objective of legal translation is for the target recipient to be provided as explicit extensive and precise legal information in the target language as is contained in the source text complemented by the translator with facts rendering the original information fully comprehensible in the different legal environment and culture a dictionary which will help its users to produce legal texts in the target language should be founded upon a profound comparative legal and linguistic analysis that will a determine equivalents at the levels of vocabulary syntax and genre b select the appropriate lexicographic material to be included in the dictionary and c create entries in a user friendly manner

covers translations of scientific and technical interest from non western languages into western languages
