this book reviews the evaluation research literature that has accumulated around 19 k 12 mathematics curricula and breaks new ground in framing an ambitious and rigorous approach to curriculum evaluation that has relevance beyond mathematics the committee that produced this book consisted of mathematicians mathematics educators and methodologists who began with the following charge evaluate the quality of the evaluations of the thirteen national science foundation nsf supported and six commercially generated mathematics curriculum materials determine whether the available data are sufficient for evaluating the efficacy of these materials and if not develop recommendations about the design of a project that could result in the generation of more reliable and valid data for evaluating such materials the committee collected reviewed and classified almost 700 studies solicited expert testimony during two workshops developed an evaluation framework established dimensions criteria for three methodologies content analyses comparative studies and case studies drew conclusions on the corpus of studies and made recommendations for future research

curriculum materials are among the most pervasive and powerful influences on school mathematics in many mathematics classes student assignments the questions the teacher asks the ways students are grouped the forms of assessment and much more originate in curriculum materials at the same time teachers have

considerable latitude in how they use their curriculum materials two classes making use of the same materials may differ markedly in what mathematics content is emphasized and how students are engaged in learning that content this volume considers a variety of research tools for investigating the enactment of mathematics curriculum materials describing the conceptualization development and uses of seven sets of tools mathematics education researchers curriculum developers teacher educators district supervisors teacher leaders and math coaches will find insights that can improve their work and guidance for selecting adapting and using tools for understanding the complex relationship between curriculum materials and their enactment in classroom instruction

this international handbook reflects on the development of the field of technology education from reviewing how the field has developed and its current strengths consideration is given to where the field might go and how it can be supported in this process this handbook argues that technology is an essential part of education for all and it provides a unique coverage of the developing field of technology education it is divided into eight sections from consideration of different approaches to education in different countries through thinking about the nature of technology perceptions of technology relationships between science technology and society learning and teaching assessment teacher education and professional development and developed and developing research approaches this book constitutes a significant collection of work from numerous countries and authors actively engaged in technology education research and development it is intended for graduate students academics researchers curriculum developers professional development providers policy makers and practitioners the development of this handbook represents an important step in the maturity of the field of technology education the field has matured as our technological society has matured to the point that research and practice can be documented as shared in this publication historians will look at this international handbook as a significant comprehensive step for a field of education that focuses on technology innovation design and engineering for all students kendall starkweather ph d dte cae itea executive director

reading across international boundaries edited by roger openshaw and janet soler clearly demonstrates these broader characteristics of debates about the teaching of reading it sets the educational issues firmly in the context of the social cultural and political dynamics that inform and animate them and give them their meaning it does so by setting out to understand their historical and comparative dimensions establishing the historical context highlights the origins and also the longevity of the problems and conflicts that are now widely familiar the comparative approach also gives purchase on the wide range of approaches taken to these issues in nations around the world more than this however this collection takes us into the realm of international influences it underlines how debates in this area are not simply national but are international and global in their scale moreover this is the case not only in relation to the broad fabric of policy debate but also in the everyday struggles of pupils parents and teachers in schools classrooms and homes such an agenda is unsettling and provocative it has the potential to challenge received opinion to hustle preconceptions it may also propose alternative visions for the improvement of teaching in this area that might be taken up and taken seriously in different localities or even more broadly most of all it enables us to enrich and broaden our understanding of the learning and the teaching of reading at a time when awareness and vision are sorely needed this collection of articles by leading scholars based in several different countries will be a significant contribution to the research field but also a major resource when put to good use by policy makers and practitioners as it should surely be

this book examines the discourses on nation building civic identity minorities and

the formation of religious identities in school textbooks worldwide it offers up to date practical and scholarly information on qualitative and mixed method textbook analysis as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries the volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social political and economic groups affect textbook production and the curricular aims in different educational systems worldwide chapters address the role of school textbooks in developing nationhood the creation of citizenship through school textbooks the complexity of gender in normative discourses and the intersection of religion and culture in school textbooks

at once a unique textbook for methods courses and a major contribution to sociological theory this book teaches students the principles of research and how to construct and test theories it brings coherence to the study of methods by presenting four major approaches to experimentation survey research participant observation life histories and unobtrusive measures from a single theoretical point of view symbolic interaction it demonstrates the need for a synthesis between theory and methods and shows how different methods limit and affect research results denzin s argues that no single method theory or observer can capture all that is relevant or important in reality he argues for the use of triangulation and for a view of theory and methods as concept sensitizers his approach enables sociologists to acquire specific facts about a particular situation while simultaneously elevating these to the level of shared meaning the author shows students how to proceed with research bringing sharply into focus the possibilities and their limitations since his view is integrated rather than eclectic this is much more than a how to do it manual denzin points out aspects of research that fall outside the scope of a given method yet affect results and emphasizes the need to employ several methods to cross check each other the research act covers all the content of conventional methods courses the presentation is exciting and imaginative and provides a thorough review of major sociological methods a cogent statement about approaches to sociological inquiry and a source from which a understanding of the problems of research can be derived norman k denzin is professor of sociology cinema studies and interpretive theory at the university of illinois urbana champaign he was awarded the george herbert mead award for lifetime achievement from the society for the study of symbolic interaction he is the author of several books including the alcoholic society children and their caretakers hollywood shot by shot sociological methods and the values of social science all available from transaction

this volume represents current theory and research in rhetoric across disciplines and is of interest to scholars and students in rhetoric studies in speech communication english and related disciplines

this journal attempts to fill a gap between the general interest press and other academic economics journals its articles relate to active lines of economics research economic analysis of public policy issues state of the art economic thinking and directions for future research it also aims to provide material for classroom use and to address issues relating to the economics profession
