karl jaspers who died in 1969 had a profound impact on 20th century theology and philosophy his central thesis called for among other things a de centering of philosophy from its eurocentric roots and a renewal of its dialogue with other traditions especially asian ones this collection of essays includes unpublished work by jaspers himself as well as testimonies to his life and career by colleagues associates and translators some of who knew jaspers personally readers will also find commentary and interpretation by researchers who have explored jaspers work for decades and a biographical account of jaspers student leonard ehrlich who handled much of jaspers english translation the book interrogates jaspers conceptions of philosophical faith his philosophy of communication and the prospects for world philosophy in the future focusing on philosophical faith it assesses jaspers interpretations of key philosophers such as kant hegel schelling kierkegaard nietzsche and rosenzweig as well as examining his personal relationships with bultmann and heidegger contributors also look at jaspers philosophies of religion and history his hypothesis of the axial age achsenzeit and his contributions to metaphysics periechontology and economics finally chapters cover jaspers philosophy of communication and world history the latter are informed by a burgeoning interest in kantian freiheitsphilosophie that influenced jaspers as well as concerns over the future of humanity these concerns in part account for jaspers growing popularity in the middle east eastern europe central south america and asia also included are lucid clarifications of the difference between religious and philosophical faith and the relevance of certainty trust and communication for a future of mankind trained as a psychiatrist jaspers practiced this profession before becoming a philosopher and thus had a keen insight into the workings of the human mind even as he challenged the philosophical establishment of his time it is perhaps this depth to his background that adds to the contemporary relevance of his work

this book is open access and available on bloomsburycollections.com it is funded by knowledge unlatched philosophy in a meaningless life provides an account of the nature of philosophy which is rooted in the question of the meaning of life it makes a powerful and vivid case for believing that this question is neither obscure nor obsolete but reflects a quintessentially human concern to which other traditional philosophical problems can be readily related allowing them to be reconnected with natural interest and providing a diagnosis of the typical lines of opposition across philosophy's debates james tartaglia looks at the various ways philosophers have tried to avoid the conclusion that life is meaningless and in the process have distanced philosophy from the concept of transcendence rejecting all of this tartaglia embraces nihilism we are here with nothing to do and uses transcendence both to provide a new solution to the problem of consciousness and to explain away perplexities about time and universals he concludes that with more self awareness philosophy can attain higher status within a culture increasingly in need of it

using reconstrutive ideas available in classical indian original works this book makes a departure in the style of modern writings on indian moral philosophy it presents indian ethics in an objective secular and wherever necessary critical manner as a systematic down to earth philosophical account of moral values virtues rights and obligations it thereby refutes the claim that indian philosophy has no ethics as well as the counter claim that it transcends ethics it demonstrates that moral living proves that the individual his society and the world are really real and not only taken to be real for behavioral purposes as the advaitins hold the self is amoral being a non agent moksa is not a moral value and the karmic theory because of involving belief in rebirth does not fuarantee that the doer of an action is also the experienter of its results contrary to what is commonly held and indian ethics can sustain itself even if such notions are dropped rajendra prasad calls indian ethics organismic because along with ethical concerns it also covers issues related to professions politics administration sex environment etc therefore in one format it is theoretical and applied normative and metaethical humanistic and non humanistic etc of course within the limits of the then cognitive enquiry

working in the tradition of world philosophy this book puts western virtue ethics in conversation with traditional indian philosophies the book begins with a contribution from michael slote on world philosophy the importance of india which is followed by contributions covering metaethical topics such as the relationship between western virtue ethics and various indian philosophical traditions and applied topics such as environmental ethics business ethics ethics and science and moral psychology contributors include scholars working in both north america and india

faith is one of the most critical aspects of the christian life because it is the means by which we receive all that god has secured for us yet the nature of faith is one of the most misunderstood concepts of christianity some conceptualize faith as some mental state that one must reach before they are able to tap into god s resources others view faith as some sort of incorporeal substance that is out there for which we must reach all of these concepts of faith are deficient if not heretical and yet all of them are found in the church others view faith as a mere fantasy or hope with no basis in reality and thus religious claims are excluded from the arena of knowledge for a number of years my heart has been trilled over the doctrine of faith as it is received and taught among evangelical christians everywhere great emphasis is laid upon faith in orthodox circles and that is good but still i am troubled specifically my fear is that the modern conception of faith is not the biblical one that when the teachers of our day use the word they do no mean what bible meant when they used it i also share the same concerns with a w tozer when he said the cause of my uneasiness are these 1 the lack of spiritual fruits in the lives of so many who claim to have faith 2 the rarity of a radical change in the conduct and general outlook of persons professing their new faith in christ as their personal savior 3 the failure of our teachers to define or even describe the thing

to which the word faith is supposed to refer 4 the heartbreaking failure of multitudes of seekers is they are even so earnest to make anything out of the doctrine or to receive any satisfying experience through it 5 the real danger that a doctrine that is parroted so widely and received so uncritically by so many is false as understood by them 6 i have seen faith put forward as an escape from reality a refuge from the necessity of hard thinking a hiding place for weak character natural optimism emotional thrills and nervous tics therefore in the pages of this book i will endeavor to outline for your benefit the dynamics of faith what is faith how does faith works how to grow in faith the power of faith the excellency of faith the demand of faith the perseverance of faith the challenges of faith the object of faith the effect of faith the response of faith the discipline of faith the necessity of faith and many more are discussed

the meeting of different cultures philosophies and religions today calls for an intensive and qualified discourse on the part of all concerned intercultural philosophy seeks to develop such a discourse through a new orientation of thought that will allow for a discussion of all philosophical problems from an intercultural perspective in this important new work ram adhar mall approaches the study of philosophy from a cross cultural point of view allowing for fundamental similarities and illuminating differences between cultures in doing so he develops a new concept of intercultural philosophy and applies it to various philosophical disciplines
