traces the beginnings of the interest in findings of archaeology stressing the fundamentalist idea of man s living on earth

c w ceram visualized archeology as a wonderful combination of high adventure romance history and scholarship and this book a chronicle of man s search for his past reads like a dramatic narrative we travel with heinrich schliemann as defying the ridicule of the learned world he actually unearths the remains of the ancient city of troy we share the excitement of lord carnarvon and howard carter as they first glimpse the riches of tutankhamen s tomb of george smith when he found the ancient clay tablets that contained the records of the biblical flood we rediscover the ruined splendors of the hanging gardens of babylon one of the wonders of

the ancient world of Chichen Itza the abandoned pyramids of the Maya and the legendary labyrinth of the Minotaur in Crete here is much of the history of civilization and the stories of the men who rediscovered it illustrated with drawings maps and photographs

this text describes 100 of the world's most important archaeological discoveries alongside the well known are placed the equally important but less familiar all of which have helped our understanding of the past however the book acts as more than a catalogue it is a celebration of the rich variety of subjects that archaeology encompasses from fossil hominids to writing systems from lost cities to shipwrecks and from pre history to medieval times

fascinating greg jennett i couldn't put it down janina ramirez fabulous natalie haynes alive with the spirit of adventure ranulph fiennes if you love indiana jones this is the real thing dan snow ancient shipwrecks in crystal seas mythical princesses preserved in ice and astonishing lost rituals this is the story of archaeology professor michael scott uncovers the true stories behind history's most monumental discoveries unearthing traps curses and buried treasure along the way full of extraordinary characters from glory hunters to forgotten heroes x marks the spot explores our love affair with the past

the history of archaeology an introduction provides global coverage with chapters devoted to particular regions of the world the regional approach allows readers to understand the similarities and differences in the history of and approach to archaeology in various parts of the world each chapter is written by a specialist scholar with experience of the region concerned thus the book focuses on the earliest beginnings of archaeology in different parts of the world and how it developed from being a pastime for antiquarians and collectors to a serious attempt to obtain information about past societies woven into the text are various boxes that explore key archaeologists sites and important discoveries in the history of archaeology enriching the story of the discipline's development with such far ranging coverage including an exploration of the little covered development of russian and chinese archaeology the history of archaeology is the perfect introduction to the history of archaeology for the interested reader and student alike

from the bestselling author of 1177 b.c. a comprehensive history of archaeology from its amateur beginnings to the cutting edge science it is today in 1922 howard carter peered into tutankhamun's tomb for the first time the only light coming from the candle in his outstretched hand urged to tell what he was seeing through the small opening he had cut in the door to the tomb the egyptologist famously replied i see wonderful things carter's fabulous discovery is just one of the many spellbinding stories told in three stones make a wall written by eric cline an archaeologist with more than thirty seasons of excavation experience this book traces the history of archaeology from an amateur pursuit to the cutting edge science it is today by taking the reader on a tour of major archaeological sites and discoveries along the way it addresses the questions archaeologists are asked most often how do you know where to dig how are excavations actually done how do you know how old something is who gets to keep what is found taking readers from the pioneering digs of the eighteenth century to today's exciting new discoveries three stones make a wall is a lively and essential introduction to the story of archaeology

bruce trigger's new book is the first ever to examine the history of archaeology from medieval times to the present in world wide perspective at once stimulating and even handed it places the development of archaeological thought and theory throughout within a broad social and intellectual framework the successive but interacting trends apparent in archaeological thought are defined and the author seeks to determine the extent to which these trends were a reflection of the personal and collective interests of archaeologists as these relate in the west at least to the fluctuating fortunes of the middle classes while subjective influences have been powerful professor trigger argues that the gradual accumulation of archaeological data has exercised a growing constraint on interpretation in turn this has increased the objectivity of archaeological research and enhanced its value for understanding the entire span of human history and the human condition in general

in history archaeology and the bible forty years after historicity hjelm and thompson argue that a crisis broke in the 1970s when several new studies of biblical history and archaeology were published questioning the historical critical method of biblical scholarship the crisis formed the discourse of the copenhagen school's challenge of standing positions which together with new achievements in archaeological research demand that the regional history of ancient israel judaea and palestine be reconsidered in all its detail this volume examines the major changes that have taken place within the field of old testament studies since the ground breaking works of thomas thompson and john van seters in 1974 and 1975 both republished in 2014 the book is divided in three sections changing perspectives in biblical studies history and cult and ideology and history presenting new articles from some of the field's best scholars with comprehensive discussion of historical archaeological anthropological cultural and literary approaches to the hebrew bible and palestine's history the essays question how does biblical history relate to the archaeological history of israel and palestine and can we view the history of the region independently of a biblical perspective by looking at the problem from alternative angles and questioning long held interpretations unafraid to break new ground history archaeology and the bible forty years after historicity is a vital resource to students in the field of biblical and east mediterranean studies and anyone with an interest in the archaeology history and religious development in palestine and the ancient near east
