one of our most brilliant minds offers a sweeping intellectual history that argues for the reclamation of culture s value culture is a defining aspect of what it means to be human defining culture and pinpointing its role in our lives is not however so straightforward terry eagleton one of our foremost literary and cultural critics is uniquely poised to take on the challenge in this keenly analytical and acerbically funny book he explores how culture and our conceptualizations of it have evolved over the last two centuries from rarified sphere to humble practices and from a bulwark against industrialism s encroaches to present day capitalism s most

profitable export ranging over art and literature as well as philosophy and anthropology and major but somewhat unfashionable thinkers like johann gottfried herder and edmund burke as well as t s eliot matthew arnold raymond williams and oscar wilde eagleton provides a cogent overview of culture set firmly in its historical and theoretical contexts illuminating its collusion with colonialism nationalism the decline of religion and the rise of and rule over the uncultured masses eagleton also examines culture today lambasting the commodification and co option of a force that properly understood is a vital means for us to cultivate and enrich our social lives and can even provide the impetus to transform civil society

terry eagleton s book in this vital new series from blackwell focuses on discriminating different meanings of culture as a way of introducing to the general reader the contemporary debates around it

this controversial book is a survey of how relationships between indigenous peoples and the archaeological establishment have got into difficulty and a crucial pointer to how to move forward from this point with lucid appraisals of key debates such as nagpra kennewick and the repatriation of tasmanian artefacts laurajane smith dissects the nature and consequences of this clash of cultures smith explores how indigenous communities in the usa and australia have confronted the pre eminence of archaeological theory and discourse in the way the material remains of their past are cared for and controlled and how this has challenged traditional archaeological thought and practice essential reading for all those concerned with developing a just and equal dialogue between the two parties and the role of archaeology in the research and management of their heritage

dave beech and john roberts develop what they call a counter intuitive notion of the philistine with insights on cultural division and exclusion

now thoroughly updated and revised this new edition of the highly acclaimed dictionary provides an authoritative and accessible guide to modern ideas in the broad interdisciplinary fields of cultural and critical theory updated to feature over 40 new entries including pieces on alain badiou ecocriticism comparative racialization ordinary language philosophy and criticism and graphic narrative includes reflective broad ranging articles from leading theorists including julia kristeva stanley cavell and simon critchley features a fully updated bibliography wide ranging content makes this an invaluable dictionary for students of a diverse range of disciplines

the last two decades have witnessed a profound change in the way we receive the literary texts of early modern england one could call this a move from text to culture put briefly earlier critics tended to focus on literary texts strictly conceived plays poems prose fictions essays since the mid 1980s however it has been just as likely for critics to speak of the culture of early modern england even when they do so in conjunction with analysis of literary texts this cultural turn has clearly enriched the way in which we read the texts of early modern england but the interdisciplinary practices involved have frequently led critics to make claims about

materials and about the culture these materials appear to embody that exceed those materials representativeness shakespeare and the question of culture addresses the central issue of culture in early modern studies through both literary history and disciplinary critique douglas bruster argues that the culture literary critiques investigate through the works of shakespeare and other writers is largely a literary culture and he examines what this necessary limitation of the scope of cultural studies means for the discipline of early modern studies

this book examines british imperial colonial and postcolonial national identities within their political and social contexts by considering the export adoption and creation of such cultural identities these essays show how nationhood and nationalism are self consciously defined tools designed to focus and inspire loyalty the contributors present these ideas with particular reference to english cultural identity and its interaction with the empire they examine the national imperial and colonial aesthetic how architecture landscape painting sculpture and literature were used appropriated and re appropriated in the furtherance of social and political agendas and how this impacted on the making of britishness in all its complexities it is demonstrated that not only did the dominant aesthetic culture reinforce the dominant political and social ideology it also re presented and re constructed the notion of british national identity

terry eagleton s acclaimed work literary theory inspired a generation and established him as one of the leading thinkers of the left now he argues that the age of high theory has come to a close and looks at what ought to follow tracing the rise and fall of theory from the 1960s to the 1990s eagleton explores the cultural and political factors that brought it to birth examining how path breaking writers such as barthes foucault lacan and kristeva brought subjects like gender power sexuality and ethnicity out of the margins he offers a candid assessment of the gains and losses of cultural theory rebutting many of the standard charges against it but claiming also that it has been silent or evasive about a whole range of vital issues

what does it mean to live in the west today do people tend to identify with states with regions or with the larger west this book examines the development of regional identity in the american west demonstrating that it is a regionally diverse entity made up of many different wests great plains southwest rocky mountains and more in which american regionalism finds its fullest expression these fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them wrobel and steiner first offer a compelling overview of the west s regional nature then thirteen other rising or renowned scholars from history american studies geography and literature tell how regional consciousness formed among inhabitants of particular regions all of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature some even examine western regionalism in areas that lie beyond the west as it has traditionally been conceived each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within

the larger west but also about the constant state of flux in which regionalism exists many books speak of the west as a place but few others deal with the west's different places many wests presents a vision of the west that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect new western history toward an appreciation of regional diversity and integrate scholarship in the regional subfields it is a book for everyone who lives in studies or loves the west for it confirms that it is home to very different peoples economies histories and regions
