the essential renewable energy resource completely revised and updated for 2008

america is on the brink of a green energy revolution that can save the planet and increase peace and prosperity by harnessing the unlimited solar power after decades of promise the technology for alternative energy solutions now exists to replace our dangerous addiction to fossil fuels with cheap clean solar energy neville williams has been on the leading edge of this revolution for decades and knows from firsthand experience how sun power can transform lives and communities for the better he has traveled the globe bringing solar generated electricity to struggling communities throughout asia africa india and the developing world from isolated villages high in the mountains of nepal to remote settlements in south africa williams has worked to bring sun power to even the most off the grid reaches of the planet he has brought that knowledge and experience back to america where he founded one of the country s fastest growing solar companies if millions of poor families in the third world can get their power from the sun why can t americans concerned with their rising power bills dependence on foreign oil and carbon footprints do the same the answer is that sun power is here it works and can light up a new era of economic and environmental security if we have the will to seize this historic opportunity this book is not about predictions or promises it s about what s happening now all over the world and what still needs to be done at the publisher s request this title is being sold without digital rights management software drm applied

in response to the escalating need for up to date information on writers contemporary authors new revision series brings researchers the most recent data on the world s most popular authors these exciting and unique author profiles are essential to your holdings because sketches are entirely revised and up to date and completely replace the original contemporary authors entries for your convenience a soft cover cumulative index is sent biannually while gale strives to replicate print content some content may not be available due to rights restrictions call your sales rep for details

the present rate of devastation of our natural world and of healthy lives is unprecedented and accelerating the work of conserving land species and ways of life is more urgent and vital than ever before what does it mean to truly conserve land and community life in this era and why is this so vitally important if we are to heal the divisions in our culture and ourselves change our patterns of consumption and reverse the fate of our earth in three powerful essays three influential writers and thinkers scott russell sanders peter forbes and kathleen dean moore explore these questions giving us new insights about the promise of land conservation in our present world through its deep examination of the value of land to our culture and our souls this book becomes a meditation on reconciliation and restoration love and loss wholeness and innovation fairness and community it gives us new approaches and new hope to work to heal the great divisions and losses we see around us each day the book also includes a land and people index which gives often startling statistics on the state of our world such as the fact that america now has more malls than high schools the index a set of guidelines for setting ones highest values and other tools give this reader an added dimension as a practical and thought provoking workbook for conservationists and social activists it offers ways to move forward with more power to effect change
