from yellowstone to the great smoky mountains america s national parks are sprawling tracts of serenity most of them carved out of public land for recreation and preservation around the turn of the last century america has changed dramatically since then and so has its conceptions of what parkland ought to be in this book one of our premier environmental historians looks at the new phenomenon of urban parks focusing on san francisco s golden gate national recreation area as a prototype for the twenty first century cobbled together from public and private lands in a politically charged arena the ggnra represents a new direction for parks as it highlights the long standing tension within the national park service between preservation and recreation long a center of conservation the bay area was well positioned for such an innovative concept writing with insight and wit rothman reveals the many complex challenges that local leaders politicians and the nps faced as they attempted to administer sites in this area he tells how representative phillip burton guided a comprehensive bill through congress to establish the park and how he and others expanded the acreage of the ggnra redefined its mission to the public forged an identity for interconnected parks and struggled against formidable odds to obtain the san francisco presidio and convert it into a national park engagingly written the new urban park offers a balanced examination of grassroots politics and its effect on municipal state and federal policy while most national parks dominate the economies of their regions ggnra was from the start tied to the multifaceted needs of its public and political constituents including neighborhood ethnic and labor interests as well as the usual supporters from the conservation movement as a national recreation area ggnra helped redefine that category in the public mind by the dawn of the new century it had already become one of the premier national park areas in terms of visitation now as public lands become increasingly scarce ggnra may well represent the future of national parks in america rothman shows that this model works and his book will be an invaluable resource for planning tomorrow s parks

in imprisoned in english anna wierzbicka argues that in the present english dominated world millions of people including academics lawyers diplomats and writers can become prisoners of english unable to think outside english in particular social sciences and the humanities are now increasingly locked in a conceptual framework grounded in english to most scholars in these fields treating english as a default language seems a natural thing to do the book s approach is interdisciplinary and its themes range over areas of central interest to anthropology psychology and sociology among others the linguistic material is drawn from languages of america australia the pacific south east asia and europe wierzbicka argues that it is time for human sciences to take advantage of english as a global lingua franca while at the same time transcending the limitations of the historically shaped conceptual vocabulary of english and she shows how this can be done
