how can the tracks of dinosaurs best be interpreted and used to reconstruct them in many mesozoic sedimentary rock formations fossilized footprints of bipedal three toed tridactyl dinosaurs are preserved in huge numbers often with few or no skeletons such tracks sometimes provide the only clues to the former presence of dinosaurs but their interpretation can be challenging how different in size and shape can footprints be and yet have been made by the same kind of dinosaur how similar can they be and yet have been made by different kinds of dinosaurs to what extent can tridactyl dinosaur footprints serve as proxies for the biodiversity of their makers profusely illustrated and meticulously researched noah s ravens quantitatively explores a variety of approaches to interpreting the tracks carefully examining within species and across species variability in foot and footprint shape in nonavian dinosaurs and their close living relatives the results help decipher one of the world s most important assemblages of fossil dinosaur tracks found in sedimentary rocks deposited in ancient rift valleys of eastern north america those often beautifully preserved tracks were among the first studied by paleontologists and they were initially interpreted as having been made by big birds one of which was jokingly identified as noah s legendary raven

this book examines the post cold war security environment and how the u s has learned to wage war in this complex assymetrical world of conflict

this book is about how distinctions are drawn between civilians and combatants in modern warfare and how the legal principle of distinction depends on the technical means through which combatants make themselves visibly distinguishable from civilians the author demonstrates that technologies of visualisation have always been part of the operation of the principle of distinction arguing that the military uniform sustained the legal categories of civilian and combatant and actively set the boundaries of permissible and prohibited targeting and so legal and illegal killing drawing upon insights from the theory of legal materiality visual studies critical fashion studies and a dozen of military manuals he shows that far from being passive objects of regulation these technologies help

to draw the boundaries of the legitimate target with its attention to the co productive relationship between law technologies of visualisation and legitimation of violence this book will be relevant to a large community of researchers in international law international relations critical military studies contemporary counterinsurgency operations and the sociology of law
