the covid 19 pandemic has adversely affected global trade while factories
have stopped production worldwide due to covid 19 global trade has also been
adversely affected by the pandemic the international trade of the world s top
exporting countries has begun to decline although it is too early to judge the
impact of the pandemic on world trade as the virus has not yet been
eradicated research into the cause effect relationship between these two
phenomena is necessary to understand the magnitude of its impact as well as
possible solutions to the problem the transformation of global trade in a new
world provides relevant theoretical frameworks and the latest findings in the
field of international business and internationalization it addresses the
asymmetric impact of the covid 19 pandemic on international trade and the

methods of entry into foreign markets together with the future prospects of global trade in an era of globalization covering topics such as economic crisis green finance and labor force sustainability this premier reference source is an excellent resource for business leaders and executives economists logistics professionals sociologists students and faculty of higher education librarians researchers and academicians

the sharp realities of financial globalization become clear during crises when winners and losers emerge crises usher in short and long term changes to the status quo and everyone agrees that learning from crises is a top priority the evidence and impact of financial globalization devotes separate articles to specific crises the conditions that cause them and the longstanding arrangements devised to address them while other books and journal articles treat these subjects in isolation this volume presents a wide ranging consistent yet varied specificity substantial authoritative and useful these articles provide material unavailable elsewhere substantial articles by top scholars sets this volume apart from other information sources rapidly developing subjects will interest readers well into the future reader demand and lack of competitors underline the high value of these reference works

this book serves as an essential guide for understanding the full potential of this remarkable plant drawing from a wealth of scientific research this book explores every aspect of liquorice from its nutritional profile to its extensive health benefits with clear and structured chapters the book begins with an overview of liquorice nutrient composition followed by insights into agrarian conditions and the best agricultural practices for cultivating high quality crops it explores modern breeding techniques and provides a clear look at how starch is extracted changed for different purposes and used in various industries the exploration continues with secondary metabolites critical minerals and how processing affects nutrient retention a unique highlight is the exploration of liquorice s untapped potential in health services showcasing its wide ranging medicinal properties postharvest management strategies ensure quality while disease control measures and current regulatory guidelines provide a roadmap for safe and efficient production whether you are a researcher a food scientist or someone curious about the incredible uses of liquorice this book provides an authoritative resource to unlock its potential key features provides a detailed view of liquorice nutrients and best farming methods explores modern breeding techniques and commercial uses of starch reveals the medicinal properties of liquorice with detailed applications for health provides guidance on managing crops post harvest for enhanced quality and safety discusses regulatory frameworks and future possibilities in farming and processing this book brings together traditional knowledge and modern science which makes it a valuable resource for anyone interested in fully understanding this versatile plant whether you re working in research

farming or food production this guide gives you the information and tools you need to make smart decisions and drive innovation in the field

cardamom *Elettaria cardamomum* L. is recognized for its unique taste and aroma as the third most expensive spice after saffron and vanilla. Cardamom has been used as a spice and flavoring ingredient in food and is rich in bioactive constituents including minerals, carbohydrates, proteins, lipids, essential oils, terpenoids, flavonoids, and carotenoids. Cardamom essential oil (CEO) and other bioactive compounds accumulated in cardamom capsules contribute to their characteristic aroma and utility as a novel food and nutraceutical. CEO from capsules possesses monoterpene constituents such as α -terpineol, 1,8-cineole, α -pinene, linalyl acetate, linalool, and nerolidol, as well as the ester of α -terpinyl acetate. Flavonoids, anthocyanins, terpenoids, alkaloids, and other cardamom phenolics have shown high MIC values against *Campylobacter* species and reduced *Bacillus subtilis* spore CEO loses its flavor rapidly upon storing under a normal environment. The change in the aroma or flavor could also cause changes in the constituents of its phytochemicals. Cardamom *Elettaria cardamomum* production processing properties aims to create a multidisciplinary forum of discussion on *E. cardamomum* emphasizing its botany, ethnobotanical cultivation, horticultural practices, post-harvest marketability, phytochemistry, extraction protocols, biochemistry, nutritional value, functionality, ethnomedicinal applications, and processing specifics. The book discusses the botanical distribution, phytochemical constituents, food applications, and biological activities of cardamom capsule extracts and essential oil. Also, the text discusses the potential applications of *E. cardamomum* in food, cosmetics, and pharmaceutical products. This book is the first of its kind, a full research work dedicated specifically to cardamom applications and benefits that will be of value for researchers from multiple fields.

This book elaborates on the modern experience and prospects and the development of recommendations for sustainable development of the agrarian economy based on digital technologies and smart innovations for the provision of food security. This book dwells on the global and regional challenges for food security and answers to them through the sustainable development of the agrarian economy. The book also studies the international experience of sustainable development of the agrarian economy on the basis of digital technologies and advantages for food security. Sustainable development of the agrarian economy with the use of digital technologies as the foundation of food security of Central Asia is considered. The prospects for provision of food security through the use of smart innovations for the sustainable development of the agrarian economy are outlined. A set of applied recommendations for raising the effectiveness of the use of smart innovations for the sustainable development of the agrarian economy is proposed.
