in 1898 on the eve of the spanish american war the us army seemed minuscule and ill equipped for global conflict yet over the next fifteen years its soldiers defeated spain and pacified nationalist insurgencies in both cuba and the philippines despite their lack of experience in colonial administration american troops also ruled and transformed the daily lives of the 8 million people who inhabited these tropical islands how was this relatively small and inexperienced army able to wage wars in cuba and the philippines and occupy them american soldiers depended on tens of thousands of cubans and filipinos both for military operations and civil government whether compelled to labor for free or voluntarily working for wages cubans and filipinos suspended between civilian and soldier status enabled the making of a new us overseas empire by interpreting guiding building selling sex and many other kinds of work for american troops in the work of empire justin jackson reveals how their labor forged the politics economics and culture of american colonialism in cuba and the philippines and left an enduring imprint on these islands and the us army itself jackson offers new ways to understand the rise of american military might and how it influenced a globalizing imperial world

given the centrality of hague law to the lawful prosecution of warfare the relative paucity of dedicated works is surprising the general formulation of hague law rules is largely uncontroversial but this clarity stands in stark contrast to their interpretation and practical application how precisely for instance the fundamental rules of distinction and proportionality in attack are to dictate and constrain the planning and practice of warfare continues to be highly uncertain this important new publication fills the gap in the literature offering a comprehensive assessment of hague law it explores questions of definitions and accountability and navigates the substantive rules and their application to different types of warfare

to the clinician although huge quantities of drugs are dispensed daily by psychiatrists there appears to be insufficient concern about the short and long term effects of these exogenous agents on the recipients our patients many clinicians have been trained at a time when knowledge of clinical psychopharmacology was superficial at best and recent trainees do not necessarily have access to newer constantly changing relevant information the busy clinician is frequently dependent upon the limited knowledge dispensed by the drug company representatives and naturally shys away from many of the more esoteric contributions appearing in the literature because of the foregoing issues the executive of the clarke institute of psychiatry of the university of toronto with the financial support of the ministry of health of the government of ontario organized an international symposium on may 14 17 1982 to bring together some of the acknowledged experts in clinical psychopharmacology this book is in part a reflection of that symposium the editors are aware that a contributed volume however tightly edited is not necessarily a textbook notwithstanding this it was thought to be important to assemble expert opinion on current important issues of immediate concern to the practicing clinician with this in mind the chapters have been organized around five themes schizophrenia affective disorders and anxiety are clearly important since they are the major targets of drug use in psychiatry
