2008 best reference library journal as a field of study business ethics aims to specify the principles under which businesses must operate to behave ethically thus business ethics focuses on such issues as those that have recently attracted so much public scrutiny executive compensation honesty in accounting transparency treatment of stakeholders and respect for the environment these are in fact perennial questions that accompany the long history of human economic activity and that will also be present through an indeterminate future the five volumes of this ultimate resource recognize the inherent unity between business ethics and business and society that stems from their shared primary concern with value in commerce this encyclopedia spans the relationships among business ethics and society by including more than 800 entries that feature broad coverage of corporate social responsibility the obligation of companies to various stakeholder groups the contribution of business to society and culture and the relationship between organizations and the quality of the environment key features embraces commerce in all of its ethical and social dimensions offers comprehensive and fairly lengthy essays on such crucial topics as justice freedom stakeholder theory and regulation provides very brief essays that introduce important personages in the field while other similarly brief entries explain the nature and function of various organizations includes contributions from respected authorities in the fields of management psychology sociology communication political science philosophy and other related fields cross references to other entries in the encyclopedia and includes a list of references and suggested readings for each article key themes accounting applied ethics corporate management and the environment corporate powers organization and governance corporations in the social sphere customers and consumers economics and business employee issues environmental thought theory regulation and legislation ethical thought and theory finance gender age ethnicity diversity and sexual preference information systems international social and ethical issues justice legislation and regulation management marketing organizations political theory thought and policy problematic practices rights the encyclopedia of business ethics and society is the premier reference tool for students scholars practitioners and others interested in gaining knowledge of the role business plays with regard to the environment in which it exists making it a must have resource for all academic libraries

examining the theoretical and empirical status of applied ethics this volume demonstrates how a pluralistic and democratic society can deal with ethical issues in the light of its moral conscience

vulnerability is an important concern of moral philosophy political philosophy and many discussions in applied ethics yet the concept itself what it is and why it is morally salient is under theorized vulnerability autonomy and applied ethics brings together theorists working on conceptualizing vulnerability as an action guiding principle in these discussions as well as bioethicists medical ethicists and public policy theorists working on instances of vulnerability in specific contexts this volume offers new and innovative work by joel anderson carla bagnoli samia hurst catriona mackenzie and christine straehle who together provide a discussion of the concept of vulnerability from the perspective of individual autonomy the exchanges among authors will help show the heuristic value of vulnerability that is being developed in the context of liberal political theory and moral philosophy the book also illustrates how applying the concept of vulnerability to some of the most pressing moral questions in applied ethics can assist us in making moral judgments this highly innovative and interdisciplinary approach will help those grappling with questions of vulnerability in medical ethics both theorists and practitioners by providing principles along which to decide hard cases

offering insights and coverage of the field of cyberethics this book introduces readers to issues in computer ethics the author combines his years of experience in the field with coverage of concepts and real world case studies

most philosophers and political scientists readily admit that thomas hobbes is a significant figure in the history of political thought his theory was arguably one of the first to provide a justification for political legitimacy from the perspective of each individual subject many excellent books and articles have examined the justification and structure of hobbes commonwealth ethical system and interpretation of christianity what is troubling is that the hobbesian project has been largely missing in the applied ethics and public policy literature we often find applications of kantian deontology bentham s or mill s utilitarianism rawls s contractualism the ethics of care and various iterations of virtue ethics hobbesian accounts are routinely ignored and often derided this is unfortunate because hobbes s project offers a unique perspective to ignore it when such a perspective would be fruitful to apply to another set of theoretical questions is a problem in need of a remedy this volume seeks to eliminate or at the very least partially fill this gap in the literature not only will this volume appeal to those that are generally familiar with hobbesian scholarship it will also appeal to a variety of readers that are largely unfamiliar with

hobbes

applied or practical ethics is perhaps the largest growth area inphilosophy today and many issues in moral social and politicallife have come under philosophical scrutiny in recent years takentogether the essays in this volume including two overviewessays on theories of ethics and the nature of applied ethics provide a state of the art account of the most pressingmoral questions facing us today provides a comprehensive guide to many of the most significantproblems of practical ethics offers state of the art accounts of issues in medical environmental legal social and business ethics written by major philosophers presently engaged with thesecomplex and profound ethical issues
