rosa luxemburg s theoretical masterpiece the second volume in rosa luxemburg s complete works entitled economic writings 2 contains a new english translation of luxemburg s the accumulation of capital a contribution to the economic theory of imperialism one of the most important works ever composed on capitalism s incessant drive for self expansion and the integral connection between capitalism and imperialism this new translation is the first to present the full work as composed by the author it also contains her book length response to her critics the accumulation of capital or what the epigones have made out of marx s theory an anti critique taken together these two works represent one of the most important marxist studies of the globalization of capital also included is an essay on the

second and third volumes of Marx's Capital which had originally appeared as an unattributed chapter in Franz Mehring's book Karl Marx thank you to David Gaharia for helping to support the translation of this book

physics for IIT JEE

Students of Western civilization need more than facts they need to understand the cross-cultural global exchanges that shaped Western history to be able to draw connections between the social, cultural, political, economic and intellectual happenings in a given era and to see the West not as a fixed region but a living, evolving construct. These needs have long been central to the making of the West. The book's chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context enabling students to witness the unfolding of Western history, understand change over time and recognize fundamental relationships.

In Capital, complete 3-volume edition, Karl Marx meticulously dissects the capitalist system, exploring its dynamics, contradictions and implications for societal development. The volumes encompass a rich blend of historical analysis, economic theory and philosophical inquiry, showcasing Marx's dialectical method and critical approach to political economy through elaborate discussions on value, labor and capital. Marx elucidates the mechanisms of capital accumulation, unveiling how they shape class relations and societal structures. The work is not only a cornerstone text in Marxist theory but also a profound critique of industrial capitalism during the 19th century, set against the backdrop of emerging socialist movements. Karl Marx, a philosopher, economist and revolutionary socialist, dedicated his life to analyzing the socio-economic transformations of his time, growing up in a period marked by rapid industrialization and class struggle. Marx's observations informed his critique of capitalism and his vision for a just and equitable society. His collaboration with Friedrich Engels, thematic engagements in the Communist Manifesto and the influence of Hegelian dialectics shaped the conceptual underpinnings of Capital, reflecting his broad intellectual landscape. This essential work is recommended for readers seeking a profound understanding of economic systems and their impact on society. Whether you are an academic, activist or simply curious about the foundations of modern economic thought, Capital invites deep reflection on power dynamics and the fate of the working class, making it indispensable for anyone wishing to explore the roots of contemporary social and political issues.

Physics for NEET Volume II has been written in a simplistic style which helps the student to not only study by themselves but also accrue confidence of knowing concepts by solving numerous MCQs which are aptly placed based on the level of difficulty. The book covers topics which are normally part of Class XII syllabus and are replete with illustrations and previous years' questions, test papers and latest NEET exam papers are also added and with solutions to almost all questions. The book provides a complete practice-based atmosphere for the student to revel in.

Kalhana's Rajatarangini is the most famous historical poem which records the oldest and fullest history of the legendary kings of Kashmir as well as gives accounts of the Kashmirian kings of the historical period. It consists of eight chapters and draws upon earlier sources, notably the Nilamata Purana. Sir Stein, recognising the inestimable value of the only work of its kind, succeeded in publishing the critical edition of the text as early as in 1892. The interest of this treatise for Indian history

generally lies in the fact that it represents a class of Sanskrit composition which comes nearest in character to the chronicles which continue Kalhana's narrative it is practically the sole extant specimen of this class

Sources of the Making of the West helps bring the history of the West to life thoroughly revised and designed to be used independently or as a companion reader this two volume collection parallels the major topics and themes covered in each chapter of the Making of the West a broad range of source types and themes illuminate historical experience from a diversity of perspectives this reader offers instructors even more opportunities to promote classroom discussion of primary documents and to help students develop essential historical thinking skills publisher's website
