in zero degrees of empathy a new theory of human cruelty and kindness simon baron cohen takes fascinating and challenging new look at what exactly makes our behaviour uniquely human how can we ever explain human cruelty we have always struggled to understand why some people behave in the most evil way imaginable while others are completely self sacrificing is it possible that

rather than thinking in terms of good and evil all of us instead lie somewhere on the empathy spectrum and our position on that spectrum can be affected by both genes and our environments from the nazi concentration camps of world war two to the playgrounds of today simon baron cohen examines empathy cruelty and understanding in a groundbreaking study of what it means to be human fascinating dazzling a full scale assault on what we think it is to be human sunday telegraph highly readable this is a valuable book charlotte moore spectator important humane and immensely sympathetic richard holloway literary review

a groundbreaking and challenging examination of the social cognitive neurological and biological roots of psychopathy cruelty and evil borderline personality disorder autism narcissism psychosis all of these syndromes have one thing in common lack of empathy in some cases this absence can be dangerous but in others it can simply mean a different way of seeing the world in the science of evil simon baron cohen an award winning british researcher who has investigated psychology and autism for decades develops a new brain based theory of human cruelty a true psychologist however he examines social and environmental factors that can erode empathy including neglect and abuse based largely on baron cohen s own research the science of evil will change the way we understand and treat human cruelty

empathy plays a central role in the history and contemporary study of ethics interpersonal understanding and the emotions yet until now has been relatively underexplored the routledge handbook of philosophy of empathy is an outstanding reference source to the key topics problems and debates in this exciting field and is the first collection of its kind comprising over thirty chapters by a team of international contributors the handbook is divided into six parts core issues history of empathy empathy and understanding empathy and morals empathy in art and aesthetics empathy and individual differences within these sections central topics and problems are examined including empathy and imagination neuroscience david hume and adam smith understanding evolution altruism moral responsibility art aesthetics and literature gender empathy and related disciplines such as anthropology essential reading for students and researchers in philosophy particularly ethics and philosophy of mind and psychology the handbook will also be of interest to those in related fields such as anthropology and social psychology

we live in a time when empathy is not only lacking but on the decline kids are bullied because of the color of their skin religion culture a disability and more bullying and cyberbullying are increasing especially for black and brown kids lgbt youth and jewish and muslim

youth fueled by decreases in respect kindness and compassion the house is on fire empathy may be not be a cure all but just a little effort can transform a child into a more sensitive caring human being the good news is that empathy the ability to walk in someone else s shoes can be taught this book is all about teaching adults to teach empathy to kids the payoff will last a lifetime in this helpful guide parents caregivers and teachers are coached to help their children and students to develop social emotional skills that will equip them to better navigate the world with self compassion and empathetic concern the empathy advantage is for the busiest parents and educators it provides tips strategies online resources and activities that are fun and engaging and take just 10 to 20 minutes it emphasizes the importance of starting early being good role models spending quality face to face time together and more it will help readers understand the dynamics of bullying and teach children to stand up not only for themselves but others and it explores other topics including managing media in the home the value of pets in inculcating empathy active listening and self compassion i e being as forgiving and kind to yourself as you would to a friend

research demonstrates that even if empathy the capacity to perceive or share emotions with other beings or objects is not part of a person s communication skill set it can be taught empathy can therefore be viewed as an acquired communication skill cultivating and practicing the skill of empathy among health care providers enhances the quality of care experienced by their patients which in turn can even improve work satisfaction for health care providers many communication textbooks or manuals for care giving professions primarily focus on specific communication skills and techniques cultivating empathy takes a different approach the book sets empathy as the foundation of all therapeutic interactions and teaches the reader to learn the art of empathy by using constructive approaches and research findings from social sciences and neuroscience cultivating empathy is perfect for any student or practicing health care professional who has felt that there was an absence of rapport when interacting with clients or patients and their families real case narratives dynamic interactive exercises and simulation techniques are also provided in this text to assist helpers to learn how to be more empathetic readers will gain awareness about human and emotional aspects of patient care which will hopefully make a positive contribution to their professional practice

this book offers a new standpoint to understanding tolerance to human diversity by approaching it from the perspectives of cognitive developmental and prosocial psychology emphasising the positive aspects of social perception and behaviour it invites readers to reconsider tolerance not simply as the opposite of prejudice but as something that can in fact coexist with prejudice and intolerance

drawing on original empirical research conducted with children adolescents and young adults the book maps the response patterns for tolerant judgement and justification including psycho developmental factors it explains how tolerance regarding differences of colour creed and culture is based on underlying beliefs that guide the reasoning process to support judgements about human diversity showcasing emerging theory and a new methodology of data collection that goes beyond common approaches this book outlines a unique potential developmental trajectory for tolerance to human diversity based on fairness empathy and reason the book challenges students researchers and general readers across the fields of psychology human ethics and moral philosophy with its new insights into the character of prosocial beliefs

psychometrics and psychological assessment principles and applications reports on contemporary perspectives and models on psychological assessment and their corresponding measures it highlights topics relevant to clinical and neuropsychological domains including cognitive abilities adaptive behavior temperament and psychopathology moreover the book examines a series of standard as well as novel methods and instruments along with their psychometric properties recent meta analytic studies and their cross cultural applications discusses psychometric issues and empirical studies that speak to same explores the family context in relation to children s behavioral outcomes features major personality measures as well as their cross cultural variations identifies the importance of coping and resilience in assessing personality and psychopathology examines precursors of aggression and violence for prediction and prevention

please note this is a companion version not the original book sample book insights 1 the paradox at the heart of human nature is that people can objectify others but they also have a natural sympathy for others that they can switch off 2 the question of how humans can be so cruel is still unanswered the answers that are available are not satisfying if the answers were sufficient the question would feel as if it had been answered and the matter settled 3 the concept of evil is inadequate to explain the actions of nazis like hitler it is a mere explanation and we need a better one i explore how people can treat each other cruelly not with reference to the concept of evil but with reference to the concept of empathy 4 empathy erosion is the process of turning other people into objects and it is done when we are solely focused on our own interests it is one of the worst things you can do to another person to ignore their subjectivity and thoughts

emerging as affirmative pastoral caregivers beyond gender binaries gender creative promise uniquely brings a gender diverse theological imagination to the field of pastoral theology supplemented by deploying a gender creative interpretative lens on scripture the reader is introduced to an array of persons diverse in their gender variance four continua of gender sex identity expression attraction a gender affirmative psychotherapeutic model as a template for the field of pastoral theology common resilience strategies that transgender persons employ in the face of cultural oppression and aspersion benefits derived from religious affiliation that can enhance resilience and scripturally based principles for delivering affirmative pastoral caregiving beyond gender binaries the author encourages readers to look within and wrestle with the complexities of their own gendered selves while journeying alongside him to emerge as pastoral change makers in their places of teaching ministry and caregiving

this volume explores the relationship between representation affect and emotion in texts for children and young adults it demonstrates how texts for young people function as tools for emotional socialisation enculturation and political persuasion the collection provides an introduction to this emerging field and engages with the representation of emotions ranging from shame grief and anguish to compassion and happiness as psychological and embodied states and cultural constructs with ideological significance it also explores the role of narrative empathy in relation to emotional socialisation and to the ethics of representation in relation to politics social justice and identity categories including gender ethnicity disability and sexuality addressing a range of genres including advice literature novels picture books and film this collection examines contemporary historical and canonical children s and young adult literature to highlight the variety of approaches to emotion and affect in these texts and to consider the ways in which these approaches offer new perspectives on these texts the individual chapters apply a variety of theoretical approaches and perspectives including cognitive poetics narratology and poststructuralism to the analysis of affect and emotion in children s and young adult literature

conflict and conflict management evaluation of the models 10 where we have been and where we should go where we have been where we should go empathy related processes new measurement methods usefulness of the organizational model conclusion references index a b c d e f g h i j k l m n o p q r s t u v w y z

the now popular idea that emotions have an intelligent core and the reverse that intelligence has an emotional core comes from the

neurosciences and psychology similarly the fundamental sexualization of the brain the new interest in essential differences in male and female brains and behaviors is based on neuroscience research and neuroimages of emotions in sexualized brains scholars from a range of disciplines reflect on the epistemological claims that emotional intelligence ei can be located in the brain and that it is legitimate to attribute distinct kinds of emotions to the biological sexes the brain as an icon has colonized the humanities and social sciences leading to the emergence of such new disciplines as neurosociology neuroeconomics and neurophilosophy neuroscience and psychology now have the power to transform not only the practice of science but also contemporary society these developments the essays in this volume show will soon affect the very heart of gender studies

this is a practical book on an often overlooked group older children with autism with hands on suggestions plus an overview of research it is designed to help a range of mental health and school professionals who deal with autism it addresses individual family school and community contexts and includes a reproducible child and caregiver assessment form
