ministry of presence speaks to the heart of chaplaincy it deals with the history and definition of chaplaincy as well as the chaplain s call to ministry and relationship to his church specific challenges within the framework of chaplain ministry such as pluralism prayer and proselytizing are also addressed ministry of presence would easily fit in the library of those already in the chaplaincy chaplain candidates who are preparing for ministry or anyone who is interested in learning about chaplaincy the principles presented are not simply theory but have been born out of the context of whit s experience and practicing what he preaches his insights will encourage and challenge anyone seeking to minister from a biblical perspective in any venue of chaplaincy

at the heart of the role of chaplaincy is presence this manual designed for new chaplains explores four dimensions of presence 1 as the chaplain is present to him herself with compassion and awareness and 2 is present to the presence with sensitivity and authenticity he she then 3 moves outward to others with simple skillful means to help lighten their loads in life and 4 helps others to connect more deeply to the presence in ways that serve their highest good this is part training manual part memoir part prayer book and part self care handbook the author provides practical suggestions for pastoral support and prayer with others offers bits of wisdom to apply in one s ministry and uses stories from his pastoral work in detention and hospital ministries to provide concrete examples of ways to apply these ideas additionally this book is meant to help the chaplain nurture his her own soul through self care and prayer

this book is a metaphorical toast to the process of showing up in life and how whole person formation takes place when people allow themselves to be fully present to showing up includes essays about common areas of life in all of their beauty pain and awkwardness as people show up in spaces that are both familiar and unfamiliar they are formed not only by their presence and the presence of those around them but also by the presence of god in beauty brokenness and everything in between to showing up is both a story about showing up and a challenge to continue to do so

in our distraction filled world few gifts prove rarer or more needed than a fully attentive presence simply being there explores how we can slow down and make space to see hear and reach people amid life s grief and joy drawing on decades of ministry experience and the powerful example of jesus the author reveals the surprising yet critical difference presence makes in fostering understanding and healing he offers spiritual insights and practical steps to incarnate god s love through our undivided focus this book will recalibrate your assumptions about what matters most in service and relationships it will awaken you to simple but courageous opportunities to minister christ s presence by fully entering moments with others will you accept the calling to show up with patient attention empathy and hope the goal is first to get interested in the disconnect between desired presence and pervasive distraction then build anticipation of the book s guidance toward the small yet brave acts of availability and attentiveness that can touch lives before culminating in a call to action for the reader to embrace presence as their ministry

return to the parish the pastor in the public square is a pastoral theology that challenges pastors to view their local community rather than their congregation as their primary sphere of ministry too many churches have become insular by hoarding their resources including their pastors and trying to sustain their own survival instead of seeking the peace and prosperity of their town or city by breathing new life into an old idea of parish this book casts a vision for pastors and churches to actively engage their community with the gospel rather than simply perpetuate more programs inside the church it offers a new paradigm for pastoral ministry where pastors model and mobilize their churches to make disciples of jesus christ in the public square through community involvement and cultural engagement the book chronicles seven young pastors from diverse ministry contexts as they seek to become new parish pastors who lead their congregations into engaging various sectors of the public square business and workplace science and technology healthcare politics education the arts and multiethnic settings

americans have long been asked to support the troops and care for veterans psychological wounds who though does this injunction serve as acclaimed scholar nadia abu el haj argues here in the american public s imagination the traumatized soldier stands in for destructive wars abroad with decisive ramifications in the post 9 11 era across the political spectrum the language of soldier trauma is used to discuss american warfare producing a narrative in which traumatized soldiers are the only acknowledged casualties of war while those killed by american firepower are largely sidelined and forgotten in this wide ranging and fascinating study of the meshing of medicine science and politics

abu el haj explores the concept of post traumatic stress disorder and the history of its medical diagnosis while antiwar vietnam war veterans sought to address their psychological pain even as they maintained full awareness of their guilt and responsibility for perpetrating atrocities on the killing fields of vietnam by the 1980s a peculiar convergence of feminist activism against sexual violence and reagan s right wing war on crime transformed the idea of ptsd into a condition of victimhood in so doing the meaning of vietnam veterans trauma would also shift moving away from a political space of reckoning with guilt and complicity to one that cast them as blameless victims of a hostile public upon their return home this is how in the post 9 11 era of the wars on terror the injunction to support our troops came to both sustain us militarism and also shields american civilians from the reality of wars fought ostensibly in their name in this compelling and crucial account nadia abu el haj challenges us to think anew about the devastations of the post 9 11 era

ministry of presence forms the heart of the chaplain s ministerial role yet how does ministry of presence manifest when the chaplain is estranged from or does not have physical access to their service members this project explored the question of ministry of presence among chaplains in highly dispersed and secure military intelligence units within the context of a unitarian universalist historico theological framework the research methodologies for the author s data corpus included ethnographic research questionnaires focus group discussions and expert and informal interviews she then analyzed the results in order to glean a better understanding of the applicability of ministry of presence across multiple deployed spaces the findings suggest that flexibility and an expanded notion of presence as interconnection presence within and presence as creativity lead to greater fulfillment in performing and providing religious and spiritual support for one s deployed personnel leaf 2

most people in the united states today no longer live their lives under the guidance of local institutionalized religious leadership such as rabbis ministers and priests rather liberals and conservatives alike have taken charge of their own religious or spiritual practices this shift along with other social and cultural changes has opened up a perhaps surprising space for chaplains spiritual professionals who usually work with the endorsement of a religious community but do that work away from its immediate hierarchy ministering in a secular institution such as a prison the military or an airport to an ever changing group of clients of widely varying faiths and beliefs in a ministry of presence winnifred fallers sullivan explores how chaplaincy works in the united states and in particular how it sits uneasily at the intersection of law and religion spiritual care and government regulation responsible for ministering to the wandering souls of the globalized economy the chaplain works with a clientele often unmarked by a specific religious identity and does so on behalf of a secular institution like a hospital sullivan s examination of the sometimes heroic but often deeply ambiguous work yields fascinating insights into contemporary spiritual life the politics of religious freedom and the never ending negotiation of religion s place in american institutional life

this book is a guide for selecting training and supervising lay pastoral care providers in churches and other faith communities it was written primarily for liberal religious faith communities

nothing happens in the kingdom of god without prayer prayer is how things get done this book provides a new model for intercessory prayer called presence oriented prayer not only will this revolutionize your prayer life but you will see more answered prayers
