this reference investigates recent advances and undertakings in the financial industry to better equip all members of the world economy with the tools and

insights needed to weather any shift in the economic climate offering chapters on topics ranging from investment portfolios to credit unions

the period since the global financial crisis and numerous scandals have exposed some areas of serious illegal and unethical conduct within western banking systems despite extensive reforms it is increasingly apparent however that there is a persistent problem with the culture of banking in anglo america us and uk state managers made substantial efforts to reform the culture of their banking sectors however this book argues that they focused on an extremely narrow definition of bank culture they did so for two reasons firstly because the structural pressures of financialization which are a far more important driver of the problematic features of bank culture in anglo america are harder to remedy but secondly state managers also used their bank culture response to tackle a legitimacy crisis facing their institutions of government in so doing they abdicated responsibility for the real problems of inequality and instability associated with their respective financial systems drawing on interviews with more than 150 individuals working in financial services as well as regulators politicians and lawyers the bank culture debate explains the strategies employed by state managers before then examining what has and has not changed in the culture of banking in the us and uk

encyclopaedia on banking and finance in the usa includes bibliographys maps and statistical tables

the covid 19 global health pandemic which started in late december 2019 forced many countries to adopt unusual measures such as social distancing and strict lockdowns it changed many of our certainties and practices including the foundations of the market led version of capitalism by bringing social and health considerations back to the forefront of firms considerations investors strategies and governments priorities under the effects of this unprecedented crisis all sectors of finance and real economy have been seriously affected health uncertainties and their increasing consequences for human life and activities require stronger and faster actions to shape pathways towards sustainability and better resilience the covid 19 health crisis is a visible part of a greater iceberg the world health organization has tracked over recent years a large number of epidemic events around the world suggesting that many other similar diseases could appear and evolve in the future from epidemic to pandemic in a globalized world financial transformations beyond the covid 19 health crisis was specifically designed to provide the readers with new results recent findings and future outlook on the impacts of covid 19 on financial markets firm behaviors and finance and investment strategies it favors multidimensional perspectives and brings together conceptual empirical and policy oriented chapters using quantitative and qualitative methods alike this is a timely and comprehensive collection of theoretical empirical and policy contributions from renowned scholars around the world and provides the thoughts and insights required to rethink the financial sector in the event of new shocks of the same nature
