breaking new ground in african historiography the authors cover the period from pre historic times to post independent africa drawing on a wide range of sources the reconstruction throws light on the economic social and political activities of african societies before and after colonisation and the rich african civilisations which were inward as well as outward looking it is demonstrated that africans were influenced by christianity and islam long before colonialism and that africa interacted with the europeans and people from asia in the field of trade over a long period sixteen chapters are prefaced by a full synopsis of the sources of african history

covers the history of the entire african continent from prehistory to the present day a companion to african history embraces the diverse regions subject matter and disciplines of the african continent while also providing chronological and geographical coverage of basic historical developments two dozen essays by leading international scholars explore the challenges facing this relatively new field of historical enquiry and present the dynamic ways in which historians and scholars from other fields such as archaeology anthropology political science and economics are forging new directions in thinking and research comprised of six parts the book begins with thematic approaches to african history exploring the environment gender and family medical practices and more section two covers africa s early history and its pre colonial past early human adaptation the emergence of kingdoms royal power and warring states the third section looks at the era of the slave trade and european expansion part four examines the process of conquest the discovery of diamonds and gold military and social response and more colonialism is discussed in the sixth section with chapters on the economy transformed due to the development of agriculture and mining industries the last section studies the continent from post world war ii all the way up to modern times aims at capturing the enthusiasms of practicing historians and encouraging similar passion in a new generation of scholars emphasizes linkages within africa as well as between the continent and other parts of the world all chapters include significant historiographical content and suggestions for further reading written by a global team of writers with unique backgrounds and views features case studies with illustrative examples in a field traditionally marked by narrow specialisms a companion to african

history is an ideal book for advanced students researchers historians and scholars looking for a broad yet unique overview of african history as a whole

the eighth and final volume of the cambridge history of africa covers the period 1940 75 it begins with a discussion of the role of the second world war in the political decolonisation of africa its terminal date of 1975 coincides with the retreat of portugal the last european colonial power in africa from its possessions and their accession to independence the fifteen chapters which make up this volume examine on both a continental and regional scale the extent to which formal transfer of political power by the european colonial rulers also involved economic social and cultural decolonisation a major theme of the volume is the way the african successors to the colonial rulers dealt with their inheritance and how far they benefited particular economic groups and disadvantaged others the contributors to this volume represent different disciplinary traditions and do not share a single theoretical perspective on the recent history of the continent a subject that is still the occasion for passionate debate

in a vast and all embracing study of africa from the origins of mankind to the south african general election of 1994 john iliffe refocuses african history on the peopling of an environmentally hostile continent africans have been pioneers struggling against disease and nature and their social economic and political institutions have been designed to ensure survival and maximise numbers these institutions enabled them to survive the slave trade and colonial invasion but in the context of medical progress and other twentieth century innovations the same institutions have bred the most rapid population growth the world has ever seen this demographic growth has lain behind the collapse of colonial rule the disintegration of apartheid and the instability of contemporary nations the history of the continent is thus a single story binding living africans to their earliest human ancestors

the truth about africa s heritage is as complex as it is elusive this concise overview is a major step toward understanding the diverse societies on the african continent and a documentation of the way western writers have distorted images of africa as far back as the greco roman period incisive and authoritative this invaluable work by a leading black scholar splendidly chronicles africa s development mentor edition

most histories seek to understand modern africa as a troubled outcome of nineteenth century european colonialism but that is only a small part of the story in this celebrated book beautifully translated from the french edition the history of africa in the nineteenth century unfolds from the perspective of africans themselves rather than the european powers it was above all a time of tremendous internal change on the african continent great jihads of muslim conquest and conversion swept over west africa in the interior

warlords competed to control the internal slave trade in the east the sultanate of zanzibar extended its reach via coastal and interior trade routes in the north egypt began to modernize while algeria was colonized in the south a series of forced migrations accelerated spurred by the progression of white settlement through much of the century african societies assimilated and adapted to the changes generated by these diverse forces in the end the west's technological advantage prevailed and most of africa fell under european control and lost its independence yet only by taking into account the rich complexity of this tumultuous past can we fully understand modern africa from the colonial period to independence and the difficulties of today

this general history of modern africa has been revised and updated to take full account of the fresh perspectives on african history brought about by the end of the cold war

what wove the african continent into the rich fabric of cultures and peoples that it is today where did ancient culture trade and civilization begin how did the african people survive and thrive despite european colonization and apartheid these are just some of the questions you'll find answers to in africa african history from ancient egypt to modern south africa africa is a vast continent whose waters fertile lands minerals and diverse wildlife nurtured humankind since ancient times until european colonization and exploitation caused immeasurable suffering and loss to understand how africa developed thrived suffered and emerged into the rich tapestry of peoples that it is today take a trip back to the ancient river Nile and the east african coast witness the development of small settlements into three distinct cultures the carthaginian empire grow and flourish as an economic and commercial power the settlement of the zimbabwe plateau and the construction of enormous stone cities the emergence of the kingdom of kongo and its expansion through peaceful trade and alliances the upheaval atrocities wars and eventual stability created by european colonization the founding of the congo free state and the growth of forced labor to extract valuable resources from the land the decolonization of africa and the return of territorial sovereignty and independence the forced racial segregation under apartheid and the birth of a new constitution that ended it the founding of the african union to establish norms across the continent
