this book provides an extensive account of perfect constructions in german of its numerous meaning effects and of its interaction with temporal adverbials and temporal subclauses by doing this it takes the semantics of the whole german tense system into account provides analyses of several temporal adverbials and their intricate behavior and offers new ideas concerning the semantics of temporal subclauses although one of the main goals of the book is to integrate the results of the study into a formal semantic framework it also considers many pragmatic factors as well as aspects concerning german syntax the book will be of interest to scholars and advanced students interested in issues regarding tense aspect temporal adverbials and temporal subclauses

semantic underspecification is an essential and pervasive property of natural language this monograph provides a comprehensive survey of the various phenomena in the field of ambiguity and vagueness the book discusses the major theories of semantic indefiniteness which have been proposed in linguistics philosophy and computer science it argues for a view of indefiniteness as the potential for further contextual specification and proposes a unified logical treatment of indefiniteness on this basis the inherent inconsistency of natural language induced by irreducible imprecision is investigated and treated in terms of a dynamic extension of the proposed logic the book is an extended edition of a german monograph and is

addressed to advanced students and researchers in theoretical and computational linguistics logic philosophy of language and nl oriented ai although it makes extensive use of logical formalisms it requires only some basic familiarity with standard predicate logic concepts since all technical terms are carefully explained

the most comprehensive introductory high school business book on the market

the papers in this volume address two main topics q1 what is the nature and especially the scope of ellipsis in natural language q2 what are the linguistic philosophical implications of what one takes the nature scope of ellipsis to be as will emerge below each of these main topics includes a large sub part that deals specifically with nonsentential speech within the first main topic q1 there arises the sub issue of whether nonsentential speech falls within the scope of ellipsis or not within the second main topic q2 there arises the sub issue of what linguistic philosophical implications follow if nonsentential speech does not count as ellipsis i the nature and scope of ellipsis a general issue how many natural kinds there are many things to which the label ellipsis can be readily applied but it is quite unclear whether all of them belong in a single natural kind to explain consider a view assumed in stainton 2000 stainton 2004a and elsewhere it is the view that there are fundamentally at least three very different things that readily get called ellipsis each belonging to a distinct kind first there is the very broad phenomenon of a speaker omitting information which the hearer is expected to make use of in interpreting an utterance included therein possibly as a special case is the use of an abbreviated form of speech when one could have used a more explicit expression see neale 2000 and sellars 1954 for more on this idea

utilitarianism by john stuart mill is an essay written to provide support for the value of utilitarianism as a moral theory and to respond to misconceptions about it mill defines utilitarianism as a theory based on the principle that actions are right in proportion as they tend to promote happiness wrong as they tend to

produce the reverse of happiness mill defines happiness as pleasure and the absence of pain he argues that pleasure can differ in quality and quantity and that pleasures that are rooted in one's higher faculties should be weighted more heavily than baser pleasures furthermore mill argues that people's achievement of goals and ends such as virtuous living should be counted as part of their happiness
