this is the second of a two volume study of the dynamics of the mt version of the book of jeremiah the first volume published in 2017 analyzed chapters 1 25 and this volume will focus on chapters 25 52 of the mt version as with the first volume the aim of this one is to show the reader how by paying attention to the dynamics of the text namely how individual passages relate to their immediate and wider contexts a new understanding of the book emerges rather than a loose collection of material assembled over a period of time by a variety of hands one can discern how the parts of the book combine to portray the dramatic unfolding of jeremiah s prophetic vocation and how his relationship with god and god s people form an integral part of the book s presentation of the word of god

jeremiah was god s man for a nation declining from having been one of the first powers to being a very third rate power a nation losing its empire losing its territory a nation getting involved in all sorts of relationships with other nations to try to survive by joining larger power units a nation that was doing exactly what ours is doing and that was becoming weak in its external and political relationships because it was becoming weak morally and spiritually inside as we go through this prophecy you will think you are reading the sunday newspapers it is a most relevant part of god s word people used to bring me

newspaper cuttings during our studies of jeremiah they were taking the word of god then picking up their newspaper the next morning and relating god s eternal word with man s word it becomes possible to see how it all fits
