cowritten by an architect of the cpim exam and the apics operations management body of knowledge ombok this is a complete study guide for all five certified in production and inventory management exams cpim all in one exam guide covers all five of the challenging exams required to achieve the certified in production and inventory management credential the book will help you prepare for the american production and inventory control society s apics cpim exam the current test structure consists of basics of supply chain management entry exam master planning of resources focused knowledge exam detailed scheduling and planning focused knowledge exam execution and control of operations focused knowledge exam strategic management of resources integrative exam this comprehensive authoritative exam guide includes sample tests test taking strategies step by step examples and much more coauthor greg deyong will be taking the exams while preparing the book and will share his experiences and recommendations so you will have a strategic advantage on exam day expands the relevant sections of the ombok to include detailed explanations study aids step by step examples and sample problems offers test taking strategies from insiders special cpim vocabulary and sample tests includes a diagnostic test that allows you to evaluate your own specific strengths and weaknesses prior to preparing for the exam both authors have been instrumental in writing questions for the cpim exam jacobs also formulated some of the ideas on the apics ombok additional exams available online

the job market continues to change highly skilled and specialized workers are in demand traditional education cannot meet all the needs to create specialty skill workers certification provides up to date training and development while promoting individual or professional skills and knowledge in a focused manner certification as a way of continuing professional education can also be more cost effective

smr was the final module to take in the past now it becomes module 1 of the new part 2 exam is it tough well in a sense yes it is tough because there is no fixed answer to the test questions you are asked to choose the best possible answer among all

potentially ok answers also most questions are long and with complicated scenarios to confuse you to pick up the politically correct answers you have to use your business sense to make judgment on a case by case basis smr is all about supply side management at a higher global and strategic level what is serious supply management all about accenture has developed seven principles of supply chain management 1 segment customers based on their service needs 2 design the logistics network based on service requirements 3 listen to the signals of market demand and plan accordingly 4 differentiate products based on actual consumer demand 5 strategically manage the sources of supply 6 develop a supply chain wide technology strategy 7 adopt measures that apply to every link in the supply chain because of advances in manufacturing and distribution the cost of developing new products and services is dropping and time to market is speeding up this has resulted in increasing customer demands local and global competition and increased pressure on the supply chain to stay competitive companies must reinvent themselves so that the supply chain sourcing and procurement production scheduling order fulfillment inventory management and customer care is no longer a cost based back office exercise but rather a flexible operation designed to effectively address today s challenges if you have been specializing in manufacturing or shop floor functions it is now the time to move yourself to a managerial position you need to see things from a broader mba style perspective
