Chapter Discussion Question: Teachers are encouraged to participate with the student as they complete the discussion questions. The purpose of the chapter purpose section is to introduce the chapter to the student. The discussion questions are meant to be thought-provoking. The student may not know the answers but should answer with their thoughts, ideas, and knowledge of the subject using sound reasoning and logic. They should study the answers and compare them with their own thoughts. We recommend the teacher discuss the questions, the student's answers, and the correct answers with the student. This section should not be used for grading purposes. Each DVD is watched in its entirety to familiarize the student with each book in the course. They will watch it again as a summary as they complete each book. Students may also use the DVD for review as needed as they complete each chapter of the course. Chapter worksheets: The worksheets are foundational to helping the student learn the material and come to a deeper understanding of the concepts presented. Often the student will compare what we should find in the fossil record and in living creatures if evolution were true with what we actually find. This comparison clearly shows evolution is an empty theory simply based on the evidence. God's word can be trusted and displayed both in the fossil record and in living creatures. Tests and exams: There is a test for each chapter, sectional exams, and a comprehensive final exam for each book.
