Crimes Against Logic Exposing The Bogus Arguments Of Politicians Priests Journalists And Other Serial Offenders Jamie Whyte The LogicLaden Lies of the Elite Unmasking the Fallacious Arguments of Those in Power Weve all been there stuck in a conversation with someone whose arguments seem airtight yet leave a lingering sense of unease Maybe their logic is twisted or perhaps theyre cherry picking evidence but something just doesnt add up Were often told that these individuals politicians priests journalists and even our friends and family are just trying to make a point or passionate about their beliefs But what happens when this passion is cloaked in the guise of logical fallacy What happens when our trust is exploited through manipulation and deception This article shines a light on the alltoocommon crimes against logic committed by those wielding influence and power We will dissect some of the most prevalent fallacies exposing the bogus arguments used to sway our opinions and manipulate our actions Here are some of the most common offenders

- 1 Ad Hominem Attacks The Fallacy Instead of addressing the argument itself this tactic attacks the person making the argument often by questioning their character motives or affiliations Example You cant trust anything this politician says hes a known liar Why Its Bogus An individuals character or past actions dont necessarily invalidate their argument
- 2 Appeal to Emotion The Fallacy This fallacy relies on manipulating emotions rather than presenting logical evidence It often uses fear pity or anger to sway an audience Example If we dont pass this bill our children will suffer Why Its Bogus Emotions while powerful should not be the primary basis for making rational decisions
- 3 Bandwagon Appeal The Fallacy This fallacy claims that an idea must be true or valid simply because many people believe it Example Everyone is doing it so it must be okay Why Its Bogus Popularity does not equate to truth
- 4 False Dichotomy The Fallacy This fallacy presents only two extreme options ignoring the possibility of other alternatives Example Youre either with us or against us Why Its Bogus Limiting choices to two extremes often leads to hasty and uninformed decisions
- 5 Straw Man Argument The Fallacy This fallacy misrepresents or distorts an opponents argument to make it easier to attack Example You think we should raise taxes So you want to take all the money from hardworking people and give it to the lazy Why Its Bogus This fallacy deliberately sets up a weak argument to knock down instead of addressing the actual issue
- 6 Appeal to Authority The Fallacy This fallacy relies on the authority of a source to lend credibility to an argument even if the source is unqualified or biased Example My pastor said its wrong to be gay so it must be true Why Its Bogus Just because someone holds a position of authority doesnt automatically make their claims true
- 7 Hasty Generalization The Fallacy This fallacy draws a broad conclusion based on limited or insufficient evidence Example I met two rude people from that town so everyone there must be rude Why Its Bogus Generalizing about an entire group based on a small sample is inherently flawed
- 8 Slippery Slope Argument The Fallacy This fallacy argues that a seemingly small action will inevitably lead to a chain of disastrous consequences Example If we legalize marijuana then everyone will become addicted to harder drugs Why Its Bogus This fallacy relies on speculation and ignores the possibility of other outcomes
- 9 CorrelationCausation Fallacy The Fallacy This fallacy assumes that because two events are correlated one must

cause the other Example Crime rates rise when ice cream sales increase therefore ice cream causes crime Why Its Bogus Correlation does not imply causation There might be a third factor influencing both events 10 Appeal to Tradition The Fallacy This fallacy argues that something must be true or valid simply because its been done for a long time Example Weve always done it this way so theres no need to change Why Its Bogus Tradition while valuable in some respects is not a valid justification for continuing outdated or harmful practices Recognizing these fallacies is the first step towards critical thinking By becoming aware of the techniques used to manipulate our thinking we can better discern truth from deception We must be wary of those who rely on rhetoric and emotion to sway us and instead demand evidencebased arguments that stand the test of scrutiny Remember A logical argument should present clear wellsupported claims avoid emotional appeals and address the opposing viewpoint with fairness When confronted with an argument that feels off take a moment to question its logic identify potential fallacies and demand better reasoning By actively engaging in critical thinking we can hold those in power accountable for their words and actions
