this review provides a snapshot of the state of art of school feeding programmes in 14 of the 15 caricom member states it provides an overview of the different models of school feeding programmes that currently exist in the caribbean challenges faced and recommendations for improvement among the aspects evaluated include the governance structure nutritional quality of meal served linkages with small farmers for the procurement of products used in the meals involvement of children in school gardens related activities etc the document includes a case study for each of the participating countries namely antigua and barbuda bahamas barbados belize dominica grenada guyana haiti jamaica st kitts and nevis st lucia st vincent and the grenadines suriname and trinidad and tobago for each of these countries an annual net benefit analysis was

conducted using information collected in 2017 the aim is that the document can provide preliminary information and recommendations that can be relevant for governments public organizations donors opinion leaders private sectors and others toward strengthening school feeding programmes in the caribbean it was developed with the support of the university of the west indies and the caribbean agro economic society under the leadership of prof carlisle pemberton and dr hazel paterson andrews

americans worry continually about their schools with frequent discussions of the crisis in american education of the failures of the public school systems and of the inability of schools to meet the current challenges of contemporary life such concerns date back at least to the nineteenth century a thread that weaves its way through the critiques of american elementary and secondary schools is that the educational system is not serving its children well that more should be done to enhance achievement and higher performance these critiques first began when the united states was industrializing and were later amplified when the soviets and japan were thought to be grinding down the competitive position of america at the start of the twenty first century as we discuss globalization and maintaining our leadership position in the world economy they are being heard again the urban school a factory for failure challenges these assumptions about american education indeed a basic premise of the book is that the american school system is working quite well doing exactly what is expected of it to wit that the schools in the united states affirm reflect and reinforce the social inequalities that exist in the social structures of the society stated differently the schools are not great engines for equalizing the existing social inequalities rather they work to reinforce the social class differences that we have had in the past and continue to have in more pronounced ways at present rist uses both sociological and anthropological methods to examine life in one segregated african american school in the mid western united states a classroom of some thirty children were followed from their first day of kindergarten through the second grade detailed accounts of the day by day process of sorting stratifying and separating the children by social class backgrounds demonstrates the means of ensuring that both the poor and middle class students soon learned their appropriate place in the social hierarchy of the school instructional time discipline and teacher attention all varied by social class of the students with those at the bottom of the ladder consistently receiving few positive rewards and many negative sanctions when the urban school was first published in 1973 the national school boards association called it one of the ten most influential books on american education for the year it remains essential reading for educators sociologists and economists
